THE LAND OFFICE BUREAU.

Among the records of this bureau are the following:

1. The records of the first title acquired by the proprietaries and the commonwealth to all the lands within the limits of the state.

2. The records of all grants and conveyances from the proprietaries and the commonwealth, which include the original application for the warrant to survey the land applied for, the warrant directed to the deputy surveyor, the return of survey by the deputy surveyor, the Surveyor General's return to the Secretary of the Land Office for patenting and the records of patents granted by the commonwealth.

3. The books of accounts showing the financial transactions of the proprietaries and the state with the purchasers of land, from the time the public domain was offered for sale down to the present time, including the lien dockets which indicate the amount of purchase money and fees remaining charged against the lands applied for.

4. The maps, drafts, reports and other papers relating to the surveys of the state and county lines, state and turnpike roads, railroads, canals and other public improvements.

5. The orders, decrees, commissions and reports of commissioners relative to the running, establishing and marking the boundary lines between the Province of Pennsylvania and the provinces adjoining; also all the papers bearing upon the adjustment of the boundary lines between this commonwealth and States of New York, Ohio, Maryland and Virginia.

6. The records of the organization of the different counties, their boundary lines and the proceedings, reports and maps relating to the erection of new counties and the remarking, changing and resurveying of the lines of the old counties.

7. The charters, maps, commissions, public documents, records and other papers pertaining to the colonial history of Pennsylvania. Also the records of the Pennsylvania commissioners relative to the Centennial Exposition of 1876.

8. The reports of the county commissioners, as provided by the act of 1887, relative to the inspection and preservation of, and the enforcement of the penal laws regarding the state boundary monuments.

9. The reports of the boards of examiners on all successful candidates who apply for certificates as mine foremen or certificates of qualification, as required by the act of 1885.

THE WORK OF THIS BUREAU FOR 1889.

The making of certified copies of original papers and other records embraces a large amount of work in the Land Office Bureau; and, while the days of activity of this bureau, so far as receiving applications for and granting warrants and patents covering unappropriated land, may be considered a thing of the past, yet the work of making certificates and copies from the hundreds of thousands of original papers seems to be materially increasing. The cause of this increase may be, and probably is, due to the developments made in the timber counties, and a large amount of expensive litigation pending in regard to original titles to the lands in the anthracite coal regions.

INCREASE OF RECEIPTS.

Comparing the receipts on account of copying fees for 1889 with those of the four preceding years, it will be observed that they are twenty-three per cent. greater than for 1888, seventeen per cent. greater than for 1887, forty-seven per cent. greater than for 1886 and twenty-five per cent. greater than for 1885.

COPYING OLD AND MUTILATED SURVEYS.

The copying of surveys and the construction of connected drafts from the original surveys constitute a large portion of this work and keep the force of draughtsmen constantly employed, or at least to such an extent as to prevent any material advancement of the work imposed under the provisions of the act of 1833, to wit: the copying of original papers. During the year, therefore, we have been able to copy only about one hundred and fifty of the old and mutilated surveys. The necessity of the reproduction of these original papers has often been referred to in the annual reports of the Secretary of Internal Affairs, as well as in the reports of the Surveyor General. The Executive of the Commonwealth has also called the attention of the Legislature to the imperative necessity of copying the original papers on account of their importance as historical records of the colonies and the early days of the commonwealth, and also on account of their inestimable value for settling disputes arising between landowners.

With these records properly copied, much expensive litigation might be avoided; but if this is not done, prolonged controversies at law will be sure to occur, resulting in conclusions unsatisfactory to the parties in interest, and leaving titles in a clouded and unsettled condition.

Governor Beaver, in his message to the last Legislature, especially called attention to the duty devolving upon it to make some provision for doing this necessary work. He recommended that draughtsmen be employed whose whole time and attention could be devoted to recopying surveys. This recommendation of the Governor, while prompted by a desire to serve the best interests of the public, seems to have been overlooked by the Legislature.

During the past year the department has made provision for permanently caring for such of the original surveys as have been recopied. Each of the originals have been folded, and, with all the mutilated parts, placed in an envelope made of the most durable paper and securely filed away in packages of fifty each, in iron cases, in such a way as to preserve them so far as it is possible to do so. It is hoped that, at no distant day, provision will be made for recopying all the old valuable papers and records which are of so much importance to the student of history and to the material interests of the commonwealth. When it is considered that fifty-six years ago the Legislature authorized this work to be done, and that as yet less than 10,000 surveys have been recopied, the little advancement made is very apparent.

VACANT LAND.

During the year there have been 47 applications made for unappropriated lands. These applications embrace an area of 3,301 acres and 145 perches, or an average of 70 acres and 40 perches for each application.

Much controversy has arisen under the provisions of the act of April 14, 1874, regulating the granting of warrants for vacant land. Prior to the passage of this act pre-emption rights were acquired only by a permanent settlement upon, and improvement of the land, and the best judgment seems to indicate that there must still be an actual improvement to the surface of the soil before a person can secure rights to a warrant by pre-emption. Some difficulty also arose under the construction of this act which regulated the filing of caveats. Where A. applied for unappropriated land and B. filed a caveat, alleging that he had become entitled to a warrant by virtue of improvement rights, and on consideration of the claims of the party it was determined that such pre-emption rights had been acquired, the party filing the caveat could rest secure against any other claimants for the land, without even paying the purchase money and fees due the commonwealth. This in effect prevented the commonwealth in many cases from securing the amount of money due for the land. To correct this and do away with uncertainties regarding pre-emption rights, the department prepared a bill which was presented to the Legislature by the Hon. Henry Hall, of Mercer county, and passed both branches of the Legislature and became a law April 23, 1889. Its provisions are as follows:

“Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the Secretary of Internal Affairs, give at least thirty days’ notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks, in one or more newspapers of the county in which the land is situate and nearest its location, and

shall furnish proof that such notice has been given before a warrant shall issue: *Provided*, That if any caveat or caveats shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property; and if the Board of Property, after a hearing upon a citation, issued in pursuance of any caveat, shall decide against issuing the warrant, the purchase money shall be returned to the applicant: *Provided*, That caveats presented by those who claim to have acquired title, by virtue of settlement and improvement rights, shall not be received as such, or prevent the granting of warrants, unless the caveator shall deposit, with the caveat, the purchase money, interest, warrant and patent fees as provided by law, which purchase money and fees shall be retained as a deposit until a decision is had as to the respective rights of the parties, and if such decision be adverse to the caveator, then the money deposited shall be refunded on application made and vouchers executed, as required by the Secretary of Internal Affairs: *Provided further*, That settlement and improvement rights shall only be acquired and recognized as such by an actual entry upon vacant land of the commonwealth, with the manifest intention of making it a place of abode, together with an actual improvement of the land by clearing and tilling the soil, for the purpose of gaining support thereby, and also defining the limits of such claim by survey and well-marked lines. No action of law shall be maintained by the person or persons claiming settlement and improvement rights, neither shall such person or persons, be permitted to set up a defense based on such rights, unless the purchase money and fees aforesaid shall have been paid to the commonwealth. All acts or parts of acts inconsistent with the provisions of this amendment be and the same are hereby repealed."

From an examination of this act, which is published for the information of those interested in the administration of the Land Office, it will be seen that when a caveat is filed by which the right to a warrant is asserted on account of pre-emption rights previously acquired, the caveator, or caveators, must file with the caveat the purchase money and warrant and patent fees before the Board of Property or the Secretary of Internal Affairs will consider the caveat.

Another important provision is that relating to suits at law where pre-emption rights are under consideration. The party claiming benefits by virtue of such pre-emption rights is estopped from such claim until evidence is produced that the commonwealth has been duly paid for all purchase money and fees due on the land in controversy.

GOLD AND SILVER ORE RESERVATION.

Ever since the Land Office has been established under the commonwealth, a reservation has been made in patents of "one-fifth part of all gold and silver ore for the use of this commonwealth, to be delivered at the pit's mouth clear of all charges." This reservation has been abol-

ished by virtue of the provisions of the act passed at the last session of the Legislature and approved May 9, 1889, as will be seen from the following extract:

"That all and every the land or lands granted in pursuance of this act, shall be free of all reservations and restrictions as to mines, royalties, quit-rents or otherwise, so that the owners thereof, respectively, shall be entitled to hold the same in absolute and unconditional property, to all intents and purposes whatsoever and to all and all manner of profits, privileges and advantages belonging to or accruing from the same, and clear and exonerated from any charge or encumbrance whatsoever, excepting the debts of said owner."

MAPS, REPORTS, ETC.

Under the act of May 8, 1876, maps and reports have been numbered and filed among the department records during the past year as follows, to wit:

Railroads.

No. 56. Pennsylvania, Poughkeepsie and Boston railroad. Map showing line of road as located between Pen Argyl and Benders, Northampton county. Filed May 8, 1889.

No. 57. Pennsylvania, Poughkeepsie and Boston railroad. Map showing line of road as located between Benders and Danielsville, Northampton county. Filed May 8, 1889.

No. 58. Pennsylvania, Poughkeepsie and Boston railroad. Map showing line of road as located between Portland and Pen Argyl, Northampton county. Filed May 8, 1889.

No. 59. Pennsylvania, Poughkeepsie and Boston railroad. Map showing line of road as located between Danielsville, Northampton county, and Slatington, Lehigh county. Filed May 8, 1889.

No. 60. Philadelphia Belt Line railroad. Map showing the line of road of the southern section. Filed July 3, 1889.

No. 61. Philadelphia Belt Line railroad. Map showing the line of road of the northern section. Filed July 3, 1889.

No. 62. Philadelphia Belt Line railroad. Map showing the line of road of the branch section. Filed July 3, 1889.

State Lines.

No. 123. Benjamin Ellicott's map of part of the northern boundary of the state. This map is not official, but was numbered and placed on file for preservation, January 17, 1889.

BOUNDARY LINES AND BOUNDARY LINE MONUMENTS.

Since the passage of the act of May 19, 1887, annual examinations have been made of the monuments which mark the boundary lines between this and other states. Some complaint has been made by the

county commissioners regarding the unnecessary expense of annual examinations, and this complaint manifested itself in an appeal which was presented to the last Legislature, and which became a law on the 26th day of April, 1889. Under this law examinations will only be made once in every five years after the year 1890. The act reads as follows:

“SECTION 1. *Be it enacted, &c.*, That the second section of the act, entitled ‘An act to provide for the care and preservation of the monuments marking the boundary lines of this commonwealth,’ approved the nineteenth day of May, Anno Domini one thousand eight hundred and eighty-seven, which provides as follows:

“SECTION 2. The said commissioners are hereby required, annually, on or before the first day of June, to make an examination and inspection of the condition of said boundary monuments, upon the state boundary adjoining their respective counties, if any, and to make a detailed report thereof and submit the same to the Department of Internal Affairs,’ be and the same is hereby amended so that it shall read as follows:

“SECTION 2. The said commissioners are hereby required, on or before the first day of June, in the year one thousand eight hundred and ninety, and on or before the first day of June in every fifth year thereafter, to make an examination and inspection of the condition of said boundary monuments upon the state boundary adjoining their respective counties, if any, and to make a detailed report thereof and transmit the same to the Department of Internal Affairs.”

The commissioners of the border counties were furnished with the usual blanks for the annual report of 1889, but after the passage of this act only a few counties returned reports. By a close reading of the act, it will be observed that the first report is to be made on or before the first day of June, 1890, and every five years thereafter; and the counties that made reports for 1889 will not be required to make any for 1890.

The reports received for 1889 are not published in this report, but will be included in the report for 1890, together with those received for that year.

Many complaints were also made that the act of 1887 made no provision for defraying the expenses incurred by the commissioners and their surveyors in making examinations of the monuments. The salaries of the commissioners in some of the counties are governed by local laws, and no difference how much time might be occupied in making a careful examination of the monuments, as required by law, it is claimed that they would be entitled to no additional compensation for their services. By some of the counties bills were sent to the commonwealth and payment demanded for the expenses of the annual examination. None of these bills have been paid, because no authority of law is given for such payment. An act was passed by the last Legislature making provision for the payment of these expenses. It reads as follows:

"A SUPPLEMENT

"To an act, entitled 'An act to provide for the care and preservation of the monuments marking the boundary lines of this commonwealth,' approved the nineteenth day of May, Anno Domini one thousand eight hundred and eighty-seven, providing for the payment of the expenses incurred by the proper counties of the commonwealth in carrying out the requirements of said act.

"SECTION 1. *Be it enacted, &c.*, That hereafter the expenses incurred by the proper counties of the commonwealth in the examination and inspection, and in the care and preservation of the boundary monuments upon the state boundary adjoining said counties, shall be allowed out of the state tax on personal property collected in said counties, on presentation of proper vouchers therefor approved by the Auditor General.

"SECTION 2. That thereafter the expenses incurred by said counties in the examination and inspection, and in the care and preservation of said monuments and landmarks, and in the enforcement of the statutes of the commonwealth against any person or persons who may injure or disturb any of said monuments or landmarks, shall be allowed to said counties by the Auditor General in the settlement of the accounts against said counties for the state tax on personal property collected by them, upon presentation of approved vouchers for the same: *Provided*, That no allowance for said expenses shall be made by the Auditor General until the report of the examination and inspection of said boundary monuments, as required by the second section of said act, has been transmitted to the Secretary of Internal Affairs, who is hereby required, upon receipt of such report in satisfactory form, to file his certificate of such fact with the Auditor General: *Provided*, That the expense shall not exceed seventy-five dollars in any one year.

APPROVED—The 13th day of May, A. D. 1889."

The proviso in the last clause of the bill, which reads as follows: "That the expense shall not exceed seventy-five dollars in any one year," would seemingly, if the clause be construed strictly, limit the total expense of the examination of the monuments in the whole state to seventy-five dollars, while it was evidently intended that the total expenses of the commissioners of any one county should not exceed that amount. It is presumed that the Auditor General in settlement with the commissioners of the several counties will regard the clause referred to as applying to each county.

In the reports of the department for several years attention has been called to the absence of monuments marking the circle of New Castle, the line which separates Pennsylvania from Delaware, and the people living in the vicinity of where the line should be located have frequently made requests that the commonwealth co-operate with the state of Delaware, and have the line resurveyed and marked with enduring monuments. All the other lines which mark the limits of the commonwealth are well defined by the erection of permanent monuments, and the Legislature, at its last session, through the recommendations of His

Excellency Governor Beaver, passed an act providing for the relocation and permanent marking of the circle of New Castle. The act reads as follows:

“AN ACT

“Relative to the boundary lines and boundary line monuments.

“WHEREAS, The reports of the county commissioners on the condition of the boundary line monuments, made pursuant to the act of one thousand eight hundred and eighty-seven, show that that portion of the boundary line known as the circle of New Castle, which separates this commonwealth from the state of Delaware, is unmarked, and has not been surveyed for upwards of one hundred years, leaving its location so uncertain that it is impossible to determine in which state a large amount of property is situated;

“*And whereas*, Said county commissioners’ reports show that many of the monuments that were set in the Mason and Dixon line have been mutilated, destroyed or removed from their proper location; therefore,

“SECTION 1. *Be it enacted, &c.*, That it shall be the duty of the Governor to appoint three competent persons as commissioners, representing this commonwealth, who are hereby authorized to act in conjunction with a similar commission from the State of Delaware, to examine, survey and re-establish the boundary line that separates this commonwealth from the State of Delaware, and when said line shall have been properly relocated to mark its location by the erection of enduring monuments. It shall also be the duty of the said commissioners to make a detailed report of their operations, which, together with the field-notes of surveys, description of monuments, maps and other items of interest connected with their work, shall be filed immediately after the performance of the duties imposed by this act with the Secretary of Internal Affairs, who shall cause a proper record of the same to be made, and shall place the same among other papers and documents relating to the boundary lines, and boundary line monuments; that for the purpose of providing for the compensation of the said commissioners and for defraying other necessary expenses incident to the discharge of the duties herein imposed, the sum of two thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of any money in the treasury not otherwise appropriated, which sum shall be paid on warrant of the Auditor General to the Secretary of Internal Affairs, who shall, before disbursing the same, require the presentation of properly verified and authenticated vouchers: *Provided*, That the compensation of said commissioners shall be determined by the Governor, Auditor General and Secretary of Internal Affairs.

“SECTION 2. That whenever it shall appear, from the reports of the county commissioners on boundary line monuments, that any of said monuments have been mutilated, destroyed or displaced, or carried away from their proper location, or whenever it shall appear, on satisfactory proof

that the location of any of the boundary lines cannot be ascertained by reason of the destruction or misplacement of the monuments which mark the same, it shall be the duty of the Secretary of Internal Affairs to correspond with the proper authorities of other states interested, and he is hereby authorized to act with such parties and represent this Commonwealth in the re-establishment, by survey or otherwise, of said boundary lines, the erection of new monuments, the repairing, resetting or renewing of old ones when found necessary. That an annual appropriation of fifteen hundred dollars shall be made for the purpose of defraying the expenses of surveying and locating said boundary lines, and for the repairing, resetting and renewing of the monuments that mark the same, which appropriation shall be disbursed, or so much thereof as may be necessary to make effectual the provisions of this section, under the supervision of the Secretary of Internal Affairs, who shall in all cases require the presentation of properly verified vouchers, and shall cause the same to be filed in the office of the Auditor General: *Provided*, That the said annual appropriation of fifteen hundred dollars shall cease and terminate on the first day of June, Anno Domini one thousand eight hundred and ninety-one.

“APPROVED—The 4th day of May, A. D. 1889.”

We have been informed that a similar act was passed by the Legislature of the State of Delaware, and that the Executive of that state has appointed a commission to co-operate with a commission from this commonwealth appointed under the act referred to above. The Executive of Pennsylvania has not yet, however, appointed the representatives from this commonwealth, but it is expected that the appointments will soon be made. A complete account of the work of the joint commission will appear in the annual report of this department for 1890.

This act, it will be seen, also provides for the relocation of any boundary lines of the commonwealth, and for the resetting of any monuments which, from any cause, may have been displaced. An annual appropriation for two years was made to cover such necessary expenses as might be incurred in enforcing the act. There are a few monuments on the New York boundary line which have been displaced, and it is expected that during the coming year the department will co-operate with the proper authorities in New York for the relocation of the line and the replacing or erection of monuments that have disappeared.

MAGNETIC DECLINATION.

Observations on diurnal magnetic declination have been continued, under the direction of this department (on the meridian line established in the public grounds by the U. S. Coast and Geodetic Survey in 1877), throughout the fiscal year just closed, during favorable weather, with the exception of a temporary suspension throughout the months of February and March, caused mainly by pressure of other office work. Five

hundred and fourteen observations were made and recorded, including morning, midday and evening readings. Each reading was repeated from two to four times in order to detect and eliminate any instrumental imperfections that might exist, as well as any unusual changes in magnetic conditions that might occur, such as magnetic storms, etc. No observations were made during heavy rainfalls, for want of a shelter to the instrument and observer, nor on Sundays, which accounts for quite a number of missing dates in the accompanying list of observations.

The mean average declination for each month, computed from the morning and midday readings during the month, is found to be as follows:

December, 1888,	5° 30'.97	June, 1889,	5° 33'.90
January, 1889,	5° 31'.37	July, "	5° 33'.77
February, "		August, "	5° 33'.22
March, "		September, "	5° 33'.16
April, "	5° 32'.57	October, "	5° 32'.63
May, "	5° 31'.18	November, "	5° 35'.85

A few observations have been discarded in the computations, where the readings indicated an unusual disturbance of magnetic conditions.

The monthly means indicate a gradual increase in westerly movement of the needle from December to June, a recession from June to October, and quite a rapid reverse movement to the westward through the month of November. Observations throughout November indicated a very unsteady condition of magnetic influence, especially toward the close of the month.

The mean average declination for the year is 5 degrees and 33.06 minutes, as obtained from three hundred and eighteen observations used in the computations.

The mean variation of the diurnal declination for each month is found to be as follows:

December, 1888,	4'.55	June, 1889,	5'.68
January, 1889,	2'.63	July, "	6'.27
February, "		August, "	6'.91
March, "		September, "	6'.86
April, "	4'.64	October, "	5'.86
May, "	5'.84	November, "	5'.88

The mean average variation of the declination for the year (of ten months) is 5.60 minutes.

Observations on temperature were made with an exposed thermometer located near the observing station.

STATE WEATHER SERVICE BUREAU.

This bureau was established under and by virtue of the act of May 13, 1887. Its operations for the first two years of its existence were embodied in the reports of the department for 1887 and 1888. The work devolving upon the department is largely clerical, as the management, by the act referred to, is almost entirely imposed upon the Franklin Institute of Philadelphia. Since the organization of the bureau observers have been appointed in nearly every part of the state and commissions have been issued by the Secretary of Internal Affairs to sixty-two observers, nearly all of whom have made reports of observations which have heretofore appeared in print, both in the reports of this department and the Journal of the Franklin Institute. It must be borne in mind that the Weather Service Bureau is largely experimental; but from the results that have been had, both in the State Bureau and in the National, little doubt exists that in time the service will be so perfect that valuable results will be secured which will be exceedingly interesting to the public generally, and of inestimable value to the agriculturist.

The work of the bureau for 1889 appears in the following detailed report prepared by Sergeant T. F. Townsend, sergeant in charge of the service at the Franklin Institute. Sergeant Townsend is well qualified to fill the position he holds and is giving the service careful attention.

Immediately following the great floods of the spring of 1889 Professor Lorin Blodget, of Philadelphia, made an investigation of the causes that led to the unprecedented rainfall of May 31st and June 1st, and, at the request of this department, prepared an article giving his ideas as to the causes thereof. This article was published, as soon as received, as an advance sheet from the annual report of the department, and it is now included in this volume, immediately following the detailed report of the bureau. After a very extended investigation Professor Blodget asserts that the rainfall of the two days mentioned is the greatest of this century, and that it resulted in the most destructive flood known to modern times. A very great amount of interest has been attracted by this production of Professor Blodget's, and whatever may have been the actual causes in nature of this noted flood, the article shows that the professor has been a close observer of climatic changes and a great student of meteorology.

FRANKLIN INSTITUTE,
PHILADELPHIA, *December 13, 1889.*

To the Honorable THOMAS J. STEWART,
Secretary of Internal Affairs:

SIR: I have the honor to transmit herewith the report of Sergeant T. F. Townsend, assistant in charge of the operations of the Pennsylvania State Weather Service, for the year ending November 30, 1889, together with copies of the monthly bulletins issued during the same period, and to be,

Your most obedient servant,
W. P. TATHAM,
Chairman Committee of Meteorology of the Franklin Institute.

PHILADELPHIA, *December 15, 1889.*

To the Chairman of the Meteorological Committee of the Franklin Institute:

SIR: I have the honor to submit the following report of the operations of the Pennsylvania State Weather Service during the year ending November 30, 1889. There were, at the end of the year, seventy stations thoroughly equipped with instruments for recording the temperature and rainfall. While it is to be regretted that changes in the observers and location of stations are occasionally necessary, great praise is due to the observers for the time and labor they have expended in bringing the service up to its present high standard and efficiency. Since the organization of the service most of the records have been continuous and the value of the data, showing the climatic condition of the state, has been repeatedly demonstrated, during the past year, by the many statements of temperature and rainfall furnished to the public by the Service. In addition to the regular monthly publications containing the tabulated reports of the observer, the June Review contained a map graphically illustrating the rainfall of May 30th and 31st which caused the disastrous floods at Johnstown and other portions of the state. Since then each issue of the Review has been supplemented by charts, showing the normal temperature, the mean temperature and rainfall for the current month. The numerous commendations concerning these charts show the public appreciation of the work. Several stations have been opened during the past year and efforts are constantly being made to locate others in districts not yet completely represented.

The weather signal display stations have been well maintained with very satisfactory results, and the applications are numerous for an extension of this important branch of the Service. The weekly Weather Crop Bulletins, which contained each week the condition of the staple

crops throughout the state, have proved of great practical value and should be made a special feature during the coming growing season.

"The farmer or producer derives an advantage from knowing whether his crop is increasing in value or whether it is likely to depreciate, and in the case of several crops is able to determine to which one he may, under existing conditions, profitably and particularly apply himself. On the other hand, while the dealer possesses all information sufficient for legitimate uses, yet the fact that this information is scattered broadcast over the country weekly has a tendency to steady prices, and thus prevent rapid fluctuations in values which are so injurious to the best interests of the country. The effects of extensive natural injuries to crops, such as follows early and extensive killing frosts, floods or widespread and long-continued storms, may be, and often are, greatly exaggerated, so that anything is a public benefit which will circumscribe and keep within correct limits the reports of damage done. Such is undoubtedly the tendency of these bulletins, wherein appear exact data, setting forth not only current conditions but also the relative departures from average conditions."

The advantage of state weather services and their system have been thoroughly discussed and published in former reports, and as there has been no material change during the past year a repetition in this report is unnecessary.

Very respectfully,

Your obedient servant,

T. F. TOWNSEND,

Sergeant Signal Corps, Assistant in Charge.

PENNSYLVANIA STATE WEATHER SERVICE BULLETINS.

[Prepared under the direction of the Committee on Meteorology of the Franklin Institute.]

MONTHLY WEATHER REVIEW FOR DECEMBER, 1888.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *December 31, 1888.*

Temperature.

The mean temperature for December, determined from the tri-daily observations, was $32^{\circ}.6$, which is slightly above the normal.

The mean daily maximum and minimum, 40° and 25° respectively, give a monthly mean of $32^{\circ}.5$. The highest temperatures reported were

Pittsburgh, $62^{\circ}.1$; Tionesta, 62° ; Meadville, 61° , and Philadelphia, 61° . The lowest were Columbus, minus 10° ; Clarion, minus 9° , and Greenville, minus 4° .

The warmest period of the month was on the 26th and the coldest on the 22d.

Barometer.

The mean pressure for the state, 30.10, was about normal. The highest occurred on the 30th and the lowest on the 17th. The latter was accompanied by heavy rains throughout the state.

Precipitation.

The average rainfall, 3.14, is slightly above the normal. Some deficiencies occurred in the western part of the state. Most of the eastern counties received an excess. More than half of the monthly total for the middle and eastern parts of the state fell on the 17th, causing freshets.

Flurries of snow were frequent. Many stations report only a "trace." The greatest totals for the month are, Meadville, 21 inches; Eagle's Mere, 20 inches; Wellsboro', 13 inches; Tionesta, 13 inches; Girardville, 11 inches; Somerset, 7 inches; Uniontown, 7 inches, and Columbus, 6 inches. All of the snows melted rapidly, and none remained on the ground at the end of the month.

Wind and Weather.

No severe gales passed over the state during the month. The weather has been favorable for winter grain, which is reported in good condition.

Average number.—Rainy days, 9; clear days, 8; fair days, 8; cloudy days, 15.

Prevailing wind direction, northwest.

Miscellaneous Phenomena.

MONTHLY WEATHER REVIEW FOR JANUARY, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *January 31, 1889.**Temperature.*

The mean temperature for January, 1889, $31^{\circ}.9$, is about 5° above the average, and $9^{\circ}.8$ above that of January, 1888. The mean of the daily maximum temperature was $31^{\circ}.6$, and of the daily minimum temperature, $27^{\circ}.2$. The warmest period of the month was the 17th, and the coldest from the 19th to the 23d inclusive.

The highest temperatures reported were Westtown, $68^{\circ}.0$; Carlisle, $65^{\circ}.0$; Reading, $64^{\circ}.5$; McConnellsburg, $64^{\circ}.0$; Lancaster, $64^{\circ}.0$, and New Bloomfield, $64^{\circ}.0$. The lowest were Charlesville, minus 5° ; Emporium, minus 3° ; Honesdale, minus 3° ; Smethport, minus $2^{\circ}.5$; Hollidaysburg, minus 2° ; New Castle, minus 2° ; Coudersport, minus 2° , and Wellsboro', minus 2° . Stations with the highest mean for the month were Philadelphia, $37^{\circ}.3$; Uniontown, $36^{\circ}.5$; Pittsburgh, $35^{\circ}.2$; Catawissa, 35° ; Pottstown, 35° , and Indiana, $34^{\circ}.9$.

Those with the lowest were Eagle's Mere, $26^{\circ}.6$; Honesdale, $27^{\circ}.8$; Phillipsburg, $28^{\circ}.3$; Greenville, $28^{\circ}.7$; Coudersport, $28^{\circ}.6$, and Clarion, $29^{\circ}.1$.

Barometer.

The mean pressure, 30.05, is .05 below the normal. The highest readings noted were on the 17th, 19th and 23d, and the lowest on the 9th and 27th. That of the 9th accompanied the tornadoes which passed over the state on that date.

Precipitation.

The average rainfall, including melted snow, was 3.54 inches, which is slightly above the normal. The fall was very evenly distributed, both during the month and over the state. Light snow squalls were frequent. The heaviest snowfall occurred on the 20th. The greatest totals in inches for the entire month were, Meadville, 21; Eagle's Mere, 19; Coudersport, 18; Somerset, 13; Wellsboro', 12, and Rimersburg, 12. Very little snow remained on the ground at the end of the month.

Wind and Weather.

The prevailing wind was from the west. On the 9th, several portions of the state were visited by tornadoes, which did a large amount of damage. Owing to the extreme mildness of the month much plowing was done and no ice was harvested. Winter grain is reported in good condition.

Average number.—Rainy days, 10; clear days, 9; cloudy days, 9.

MONTHLY WEATHER REVIEW FOR FEBRUARY, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *February 28, 1889.*

Temperature.

The mean temperature for February, obtained from the daily observations of forty-six stations, was $23^{\circ}.0$, which is 6° below the normal.

The mean daily maximum and minimum, $31^{\circ}.3$ and $14^{\circ}.8$ respectively, give a monthly mean of $23^{\circ}.0$.

Uniontown reports an average daily temperature of $30^{\circ}.0$, and Eagle's Mere $12^{\circ}.0$, which are the two extremes.

The highest temperatures reported were Indiana, 60° ; Uniontown, 58° ; McConnellsburg and Phillipsburg each 56° . The lowest were Coudersport, minus 27° ; Smethport, minus 27° ; Columbus, minus 26° ; Grampian Hills, minus 21° ; Clarion, minus 21° ; Emporium, 20° , and Wellsboro', minus 20° .

The low temperature occurred on the 24th.

Barometer.

The mean pressure for the month, 30.14, is .05 above the normal. The highest pressure occurred during the cold period of the 24th, and the lowest on the 5th and 18th. Rain and snow storms attended these depressions.

Precipitation.

The amount of rain and melted snow for the month averaged 1.96 inches, which is 1.25 inches less than the normal. The precipitation was evenly distributed throughout the state, and at quite regular intervals during the month. Snows were numerous, but soon melted in the agricultural districts. The greatest total snowfalls in inches for the month were Eagle's Mere, 28; Smethport, 20; Phillipsburg, 18; Wellsboro', 18; Coudersport, 17, and Grampian Hills, 17. No heavy drifts occurred.

Wind and Weather.

The prevailing wind was from the west. No severe gales occurred. Owing to the rapid melting of the snows, winter grain has been much exposed, but at the end of the month it had not been materially injured. The ice harvest was abundant.

Average number.—Rainy days, 9; clear days, 7; fair days, 9; cloudy days, 12.

MONTHLY WEATHER REVIEW FOR MARCH, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *March 31, 1889.*

Temperature.

The mean temperature for March, 1889, $38^{\circ}.9$, is from 2° to 3° above the normal, and $7^{\circ}.8$ above that of March, 1888.

The mean, determined from the daily maxima and minima, is $39^{\circ}.0$.

The following stations report the highest average daily temperatures: New Castle, $45^{\circ}.3$; Selinsgrove, $44^{\circ}.0$; Indiana, $43^{\circ}.2$, and Pottstown, $43^{\circ}.0$. The highest temperatures noted on any one day were Columbus, $76^{\circ}.0$; Pittsburgh, $70^{\circ}.0$, and Rimersburg, $70^{\circ}.0$. The lowest were Columbus, $4^{\circ}.0$; Somerset, $9^{\circ}.0$; New Castle, $9^{\circ}.0$. and Clarion, $9^{\circ}.0$. The coldest day of the month was on the 30th, but the low temperatures that generally occur in March were not reached. The entire month has been characterized by mildness.

Barometer.

The mean barometer, 29.95, is about .07 below the average. The highest pressure occurred on the 1st, and the lowest on the 7th.

Precipitation.

The average precipitation (rain and melted snow), 2.90 inches, is a deficiency of a little over one-half inch. The distribution was uneven. The largest totals reported for the month were West Chester, 5.44 inches; McConnellsburg, 4.76 inches; Coatesville, 4.49 inches, and Ottsville, 4.42 inches. Several stations report less than two inches.

The greatest total snowfall in inches were Charlesville, 11.50; Eagle's Mere, 9.60; Girardville, 8.00, and Somerset, 7.80.

Very few stations reported snow on the ground at the end of the month.

Wind and Weather.

The prevailing wind direction was from the northwest.

The weather for March was unusually fine. Notwithstanding the lack of snow, winter grain appears to have been injured very little. Frosts were numerous, but caused little damage.

Average number.—Rainy days, 9; clear days, 10; fair days, 8; cloudy days, 13.

MONTHLY WEATHER REVIEW FOR APRIL, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *April 30, 1889.**Temperature.*

The average temperature of the state for April, 1889, was $48^{\circ}.7$, which is $2^{\circ}.2$ above that of April, 1888, $46^{\circ}.5$, which is about normal. Determined from the mean of the daily maximum and minimum temperature, it was $49^{\circ}.7$, which is one degree higher.

The warmest period of the month was during the 19th and 20th, when the following temperatures were noted: Carlisle, 88° ; Hollidaysburg, 84° ; Emporium, 84° ; Grampian Hills, 84° ; Uniontown, 84° and New Castle, 84° . The lowest temperatures were Charlesville, 14° ; Somerset, 14° , and Uniontown, 17° . These occurred on the 7th.

Stations reporting the highest monthly means for the state during April, were Selinsgrove, $52^{\circ}.8$; Swarthmore, $52^{\circ}.4$; Bethlehem, $52^{\circ}.4$; and Carlisle, $52^{\circ}.3$. The lowest were Eagle's Mere, $42^{\circ}.3$; Greenville, $44^{\circ}.1$; Wellsboro', $44^{\circ}.2$; Erie, $45^{\circ}.0$; Somerset, $45^{\circ}.2$, and Honesdale, $45^{\circ}.2$.

Barometer.

The mean barometric pressure, 29.99, is very nearly normal. The highest occurred on the 7th and 23d, and the lowest, 29.3, on the 27th. The latter was attended by heavy rains.

Precipitation.

The precipitation averaged 4.50 inches, with a decided irregularity in its distribution. The greatest totals in inches were Wellsboro', 8.15; Girardville, 7.23, and Coatesville, 7.08. Most of the precipitation for the month occurred from the 24th to the 29th inclusive. Only a few stations reported snow in measurable quantities. The following are notable exceptions: Charlesville, 5.20 inches; Rimersburg, 9 inches; Grampian Hills, 5 inches; McConnellsburg, 12 inches; Somerset, 12.50 inches, and Columbus, 6 inches. These amounts fell on the 6th.

Wind and Weather.

The prevailing direction of wind was from the west. No violent wind storm of a general character passed over the state. The latter part of the month was characterized by heavy rain storms. Numerous frosts occurred without seriously damaging vegetation.

At the end of the month, grain, grass, fruits and foliage, were more advanced than usual at this season. Notwithstanding the absence of snow during the winter months, grain was not materially injured by freezing out.

Average Number.—Rainy days, 11; clear days, 11; fair days, 8; cloudy days, 11.

Observers are particularly requested to measure and record the rain-fall *each day*, instead of giving the total for each storm. Each day's record should be made complete. Also to forward their monthly reports not later than the 5th, so that the REVIEW can be published at an earlier date. Original entries should be made in the book (Form 1) furnished by the service, and not on loose slips of paper. This will avoid errors in transcribing. Those not furnished with addressed envelopes should address all communications to the Pennsylvania State Weather Service, Philadelphia, Pa.

MONTHLY WEATHER REVIEW FOR MAY, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, May 31, 1889.*Temperature.*

The mean temperature for May, 1889, was $62^{\circ}.0$, which is one degree above the average.

The warmest period of the month occurred on the 9th, and the coldest on the 2d, 4th and 29th. Frosts were general throughout the state on these dates.

The highest temperatures reported were Carlisle, 96° ; Hollidaysburg, 94° ; Reading, 94° ; Coatesville, 94° , and York, 94° . The lowest temperatures were Emporium, 25° ; New Castle, 26° ; Columbus, 26° , and Dyberry, 26° .

The highest mean monthly temperatures were Indiana, $68^{\circ}.3$; Annville, $66^{\circ}.5$, and Emporium, $64^{\circ}.5$. The lowest were Wellsboro', $55^{\circ}.1$; Columbus, $56^{\circ}.0$, and Dyberry, $56^{\circ}.3$.

From January 1st to May 31st, the temperature excess was 404° at Philadelphia, 231° at Pittsburgh, and 56° at Erie.

Barometer.

The mean atmospheric pressure was 29.97, which is normal. The range between the extremes was about seven-tenths.

The highest noted was on the 18th, and the lowest during the 11th. Neither were attended by any unusual atmospheric conditions.

The minor depression of the 31st, accompanied the heavy rainfall on that date.

Precipitation.

The average rainfall over the state during the month was 5.91 inches, which is an excess of over two inches. Had it not been for the phenomenal rainfall of the 31st, there would have been a deficiency in the western and middle portions of the state. The largest totals in inches for the month were McConnellsburg, 12.41; Grampian Hills, 11.60; Charlesville, 11.07; Harrisburg, 9.51; Smethport, 9.21, and Selinsgrove, 9.20. The excessive and unprecedented rainfall of the 31st, which caused disastrous floods, was at Grampian Hills, 8.37 inches; McConnellsburg, 7.08 inches; Charlesville, 6.71 inches; Selinsgrove, 6 inches; Emporium, 5.85 inches; Smethport, 5.50 inches; Hollidaysburg, 5.12 inches, and Harrisburg, 4.66 inches. In the southeastern portion of the state the fall was very light on this date, many stations reporting less than one-tenth of an inch.

From the 1st to the 10th there was a general absence of rain. From this time to the end of the month rains occurred almost daily at some stations.

RAINFALL DURING STORM OF MAY 10 AND 11 1884

Wind and Weather.

The prevailing direction of wind was from the west, and the month may be characterized as warm and moist. Frosts were general from the 1st to the 4th, inclusive, and on the 29th, all of which considerably impaired growing crops and fruits.

The first thunder storm of the month occurred on the afternoon of the 10th, and was general throughout the state. The lightning and wind caused heavy damages in several places. In some sections hailstones of large size fell in quite large quantities. The storm was from the northwest, and its approach was heralded by great banks of ominous looking clouds, which were violently agitated. At most stations the wind was of terrific force, and carried with it blinding and stifling clouds of dust, which fairly darkened the atmosphere. At Philadelphia a velocity of seventy-two miles was registered. Fortunately the great force was of short duration. With the bursting of the storm the temperature fell from ten to twenty degrees. At Philadelphia the self-registering barometer fell rapidly from 8 A. M. From 1.30 P. M. to 4 P. M. the fall was more decided. After the storm burst at 5 P. M. it rose one-tenth instantaneously. As a *dust storm* it was phenomenal in magnitude and intensity.

On the 31st, the central portion of the state was visited by one of the greatest rainfalls and floods ever known in this country for magnitude and destructiveness. Large sections were flooded, whole towns and cities were swept away, thousands of people drowned, and millions of dollars in property destroyed. It is estimated that from six to eight inches of rain fell in twenty-four hours over a large area of the central part of the state.

Extracts from the reports of observers, May 31st:

Grampian Hills.—From 11.40 P. M. 30th to 11.20 P. M. of 31st, 8.37 inches of rain fell. Six inches of rain fell in seven hours. Most destructive flood in Anderson's Creek on record. Wind east.

McConnellsburg.—Easterly winds, 5.45 inches of rain from 4 P. M. 30th to 4 P. M. 31st. Rain ceased midnight of 31st; 8.31 inches in thirty-two hours. Disastrous floods.

Charlesville.—South, southeast and southwest winds. Heaviest rains in years; 6.71 inches from 9 P. M. 30th to 9 P. M. 31st. Storm began at 3.15 P. M. 30th.

Selinsgrove.—Southeast winds. Rain began 2.20 P. M. 30th; six inches of rain on 31st. Thunder in east at 3 P. M.

Harrisburg.—On the 31st and night of 1st, eight inches of rainfall in eighteen hours.

Emporium.—Rain began 9 P. M. 30th, ended 11.20 P. M. 31st. Total rainfall, 5.85 inches. Water twelve feet above low-water mark, and from two to three feet higher than flood of 1861.

Smethport.—Southeast winds. Rain from 11 P. M. 30th to 11 P. M. 31st. Total rainfall, 5.50 inches.

Hollidaysburg.—Strong southerly winds until about 4 P. M., then veered a little easterly and gradually subsiding. Measurements of rainfall by rain gauge, May 30th, from 4 P. M. to 9 P. M., .39 inches; to 7 A. M. 31st, 2.11 inches; to 12 M., 3.49 inches; to 5.30 P. M., 4.23 inches; to 7 P. M., 4.97 inches; to 9 P. M., 5.51 inches; to 7 A. M., June 1st, 6.10 inches. Strong northwest wind at midnight, 31st.

Huntingdon.—The flood of history in the Juniata Valley. Water higher than ever before known. 5.41 inches of rain fell from 7 A. M. 31st to 2 A. M. June 1st; 6.57 inches from 4 P. M. 30th to 2 A. M. June 1st. Wind east and southwest.

York.—High winds from southwest. 3.19 inches of rain from early morn of 31st to early morn of June 1st. Crops badly damaged.

Carlisle.—Rain gauge overflowed. Growing grain injured. Heavy washouts and bridges washed away. Water higher than ever known. Southeast winds.

New Bloomfield.—Terrible rain, with thunder. East winds. Rainfall, 3.82 inches.

Annville.—A continued succession of cloud bursts. Strong southeast winds. Occasional thunder.

Quakertown.—A peculiar storm. Strong southeast winds. Upper clouds nearly stationary. Dark and threatening lower clouds, moving rapidly from south. Very little rain.

Coudersport.—Rain began 5 P. M. 30th, ended morning of June 1st. Total rainfall, 5.40 inches; highest water ever known in this section. Great damage done in Potter county. Wind south.

MONTHLY WEATHER REVIEW FOR JUNE, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *June 30, 1889.**Temperature.*

The mean temperature for the month of June, 1889, was $66^{\circ}.5$, which is from two to three degrees below the average, and two degrees below the corresponding month of last year.

The means of the daily maxima and minima were $76^{\circ}.4$ and 57° , respectively.

Neither extreme high nor low temperatures were noted during the month.

The warmest period at most stations was on the 21st, and the coldest on the 2d, 7th and 24th. Frost occurred in some of the northern border counties on these dates.

The highest recorded temperatures were: Reading, 95° ; Carlisle, 93° ; Pottstown, 91° , and York, 91° .

The lowest were Dyberry, 33° ; Honesdale, 35° , and State College, 37° .

Barometer.

The mean pressure was 0.06 above the normal. The greatest pressure was on the 24th, and the least on the 5th. The extreme range was about 0.75.

Precipitation.

The average rainfall for June, 1889, was 5.43 inches, which is an excess of 1.63 inches.

The entire month was characterized by frequent and heavy rainfalls. The great and destructive rain-storm of the 30th and the 31st of May continued to the morning of June 1st, over a great extent of country. On the last-named date, over twenty stations report a fall of from one to three inches, making a total in inches for the three days' storm, as follows: Wellsboro', 9.80; McConnellsburg, 8.99; Grampian Hills, 8.60; Harrisburg, 7.78; Selinsgrove, 7.53; Charlesville, 7.50; Huntingdon, 6.57; Coudersport, 6.33; Phillipsburg, 6.09; Smethport, 6; New Bloomfield, 6.14; Emporium, 5.97; Hollidaysburg, 5.80; Eagle's Mere, 5.53; Altoona, 5.33; Girardville, 4.59; Somerset, 4.43; Myerstown, 3.37.

For the month of June, one station had rain on 21 days, four stations on 20 days, one station on 19 days, and three stations on 18 days. The average for the state was 15 days.

The following stations report the greatest total in inches: Wellsboro', 10.04; Myerstown, 8.66; Reading, 8.21; Girardville, 8.01; Seisholtzville, 7.91; Ottsville, 7.58; Smith's Corner, 7.54; Uniontown, 7.36; Quakertown, 7.31, and Harrisburg, 7.18.

The excessive rainfall and the unusual number of rainy days, marks the month as exceptionally wet. With the exception of the 2d, 23d and 24th, rain fell on every day in some part of the state.

Wind and Weather.

The prevailing winds were from the west and southwest, with no severe and general gales. A few frosts were reported, but no damage of any amount resulted from them. The month was excellent for the growth of all vegetation, and large crops were secured where harvesting was not interfered with by the excessive wet.

In some sections the damage to the hay crop was very great.

Average number.—Rainy days, 15; clear days, 5; fair days, 12; cloudy days, 13.

MONTHLY WEATHER REVIEW FOR JULY, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *July 31, 1889.**Temperature.*

The mean temperature for July, 1889, was $71^{\circ}.2$, which is about one degree below the normal, and two degrees above the corresponding month of last year. The greatest departures were in the eastern border counties. The mean of the maximum temperatures was $81^{\circ}.3$; and the mean of the minimum $61^{\circ}.8$. The highest temperatures reported were Charlesville, 96° ; Hollidaysburg, 95° ; Greenville, 95° ; Phillipsburg, 94° ; Coatesville, 94° ; Grampian Hills, 94° ; Bethlehem, 94° ; New Bloomfield, 94° , and Philadelphia, 94° . These occurred on the 9th and 10th. The lowest temperatures were Coudersport, 39° ; New Bloomfield, 40° ; Wellsboro', 42° ; Columbus, 42° , and Dyberry, 42° .

July is the warmest month of the year, being two degrees warmer than August, and four or five degrees warmer than June. The mean of the three summer months is two degrees less than July.

Isothermal Lines for July.

Lines representing places having the same normal temperature are very difficult to trace over the mountain ranges and deep valleys of Pennsylvania. Observations are usually taken at towns in the river valleys, and such deep depressions have a temperature two degrees higher than that of the country back of them. In preparing the accompanying chart an allowance of about one degree was made for such excess. This will explain the lines passing through the northern counties, particularly at places where somewhat higher summer mean temperatures are recorded. In the broader valley of the Susquehanna, the lines may properly be carried sharply along the valley itself.

Atmospheric Pressure.

The barometer averaged slightly above the normal. The highest pressure occurred on the 6th and 7th, and the lowest on the 19th, 20th and 23d.

Precipitation.

The rainfall for July averaged 6.80 inches for the state, which is an excess of from two to three inches.

The month was very humid and tropical in character. Rains were frequent and varied from light to torrential over areas little distant from each other. In many places heavy downpours occurred, which were disastrous, and entirely local in character. On the 30th and 31st very heavy rains occurred over the eastern part of the state, which caused heavy floods. The Schuylkill was reported the highest since the

flood of 1869. Its banks were overflowed, and it is estimated that at one time ten feet of water were over Fairmount dam. The largest totals in inches for the month were: Landsdale, 15.02; Ottsville, 13.19; Coatesville, 12.93; Frederick, 12.69; Pottstown, 12.50; West Chester, 12.49; Smith's Corner, 12.30; Point Pleasant, 12.30. The smallest were Greenville, 1.04; Erie, 1.68, and Columbus, 2.00. The excess of rainfall extended into New Jersey, eastern New York and Connecticut; also, Delaware and Maryland.

Wind and Weather.

The prevailing wind was from the west; no severe gales occurred. In some sections large portions of the hay crop were badly damaged during the harvest season by unfavorable weather. Some wheat was injured, and harvesting was generally delayed by frequent rains. The season has been favorable for the growth of all vegetation.

Miscellaneous Phenomena.

MONTHLY WEATHER REVIEW FOR AUGUST, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *August 31, 1889.**Temperature.*

The mean temperature of the state for the month of August, 1889, was $67^{\circ}.4$, which is two degrees below the corresponding month of 1888, and about three degrees below the normal. The greatest departures were in the agricultural districts of the Lehigh, Cumberland and Lebanon Valleys. The following reports show the highest temperatures recorded during the month: Tionesta, 100° ; Carlisle, 95° ; Girardville, 95° . The lowest were Columbus, 37° ; Wellsboro', 38° ; Greenville, $38^{\circ}.7$, and Honesdale, 39° .

At most stations the warmest days of the month were the 21st and 31st, and the coldest the 12th. Stations with the highest monthly mean temperatures were Carlisle, $72^{\circ}.9$; Philadelphia, $72^{\circ}.8$; Pottstown, $72^{\circ}.0$; and Selinsgrove, $71^{\circ}.8$. The lowest monthly mean temperatures were Dyberry, $61^{\circ}.2$; Honesdale, $62^{\circ}.0$, and Phillipsburg, $62^{\circ}.0$.

Atmospheric Pressure.

The mean barometer for August was 30.09, which is about .09 above the normal. The highest occurred on the 27th, and the lowest on the 14th. This low pressure was accompanied by severe thunder storms, and the heaviest rainfall of the month.

Precipitation.

The average rainfall for the state during the month of August was 3.24 inches. Considered as a whole, this is about normal, but the distribution was very uneven, and some parts of the state suffered from drouth. The following are the greatest monthly totals in inches: Philadelphia, 7.07; Catawissa, 6.17; Girardville, 6.03; Pottstown, 5.05; West Chester, 4.43; Reading, 4.46. The least were Wellsboro', 0.83; Charlesville, 1.06; Hollidaysburg, 1.37; Altoona, 1.52, and Pittsburgh, 1.88. With but few exceptions, very little rain fell after the middle of the month. Up to this time showers were frequent.

Wind and Weather.

The prevailing winds were from the west; no severe wind-storms occurred. The weather was generally favorable for agricultural pursuits and the growth of all staple crops, with the exception of potatoes. These have suffered from rot. The corn crop will be large.

Average Number.—Rainy days, 8; clear days, 15; fair days, 10; cloudy days, 6.

NOISEL TEMPERATURE OF PENNSYLVANIA FOR SEPTEMBER

MEAN TEMPERATURE AND RAINFALL FOR SEPTEMBER, 1889

MONTHLY WEATHER REVIEW FOR SEPTEMBER, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *September 30, 1889.**Temperature.*

The mean temperature for the month of September, 1889, deduced from the reports of fifty stations, was $61^{\circ}.9$, which is about one degree above the normal, and two degrees above that of September, 1888. The greatest departures were in the southeastern part of the State. The means of the daily maximum and minimum temperatures were $70^{\circ}.8$ and $53^{\circ}.0$, respectively, making a daily mean of $61^{\circ}.9$, and an average daily range of $17^{\circ}.8$.

The highest temperatures recorded were Columbus, 92° ; Lebanon 91° ; Petersburg, 90° ; Greenville, 90° ; New Castle 90° , and Pittsburgh, 90° .

The lowest were Phillipsburg, 30° ; Clarion, 31° ; Petersburg, 31° ; New Castle, 31° ; Coudersport, 31° ; Columbus, 31° , and Dyberry, 31° .

The highest temperatures occurred on the 1st and 2d, and the lowest on the 23d.

Frosts were general on the 23d.

Stations with the highest monthly averages were Myerstown, $68^{\circ}.7$; Philadelphia, $66^{\circ}.4$; Pottstown, $65^{\circ}.0$, and Uniontown, $64^{\circ}.9$.

The lowest averages were Dyberry, $57^{\circ}.2$; South Eaton, $57^{\circ}.5$; Phillipsburg, $57^{\circ}.7$; Eagle's Mere, $58^{\circ}.2$, and Wellsboro', $58^{\circ}.4$.

Barometer.

The average pressure, 30.04, is slightly below the normal. The lowest occurred on the 20th and 21st. The range for the State was about one inch.

Precipitation.

The average precipitation for the State, 5.05 inches, is an excess of 1.50 inches. The greatest departures were in the eastern part of the State where the following totals in inches were reported: Kennett Square, 10.01; West Chester, 9.95; Eagle's Mere, 9.35; Coatesville, 9.12; Forks of Neshaminy, 8.76, and Doylestown, 8.61. The smallest totals were Wellsboro', 2.71; Altoona, 2.74; Grampian Hills, 2.76; Emporium 2.84, and Somerset, 2.94. The heavy rains, from the 10th to the 15th, did not extend to the extreme western part of the State. A few stations reported light snow on the 19th, 20th and 21st.

NOTE.—Observers are particularly requested to enter the time of the beginning and ending of precipitation. Also to note *excessive precipitation*.

Excessive precipitation is an actual fall of 2.50 inches or over in twenty-four hours, or one inch or more in one hour.

Wind and Weather.

The notable West Indian hurricane, which occasioned the destructive

floods along the seaboard of New Jersey from the 9th to the 12th, caused high winds and heavy rains throughout the eastern and middle portions of Pennsylvania. The whole month may be characterized as wet and unpleasant. The dampness caused considerable delay in wheat seeding, and rotted potatoes so badly that only a very small crop was secured.

Average Number.—Rainy days, 13; clear days, 8; fair days, 8; cloudy days, 14.

Prevailing Direction of Wind.—West.

MONTHLY WEATHER REVIEW FOR NOVEMBER, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *November 30, 1889.*

Temperature.

The mean temperature of sixty-six stations for the month of November was $41^{\circ}.9$, which is from 2° to 3° above the normal, and the same as that of November, 1888. The mean of the daily maximum and minimum, $48^{\circ}.8$ and $34^{\circ}.7$, gives a mean temperature of $41^{\circ}.8$, and an average daily range of $14^{\circ}.1$.

The highest temperatures reported during the month were Greensburg, 73° ; Annville, 71° , and Centre Valley, 71° . The lowest were Dyberry, 10° ; Somerset, 10° ; Coudersport, 10° ; Lock Haven, 12° ; Wellsboro, 12° , and Columbus, 12° . The warmest period of the month was on the 1st, 2d and 3d, and the coldest on the 17th and 30th.

Total excess in temperature during November at Philadelphia, 112° .

Total excess in temperature during November at Erie, 82° .

Total excess in temperature since January 1st at Philadelphia, 334° .

Total excess in temperature since January 1st at Erie, 181° .

Barometer.

The mean pressure for the month, 30.08, is about .03 above the normal. The highest, 30.690, occurred at Philadelphia on the 16th, and the lowest, 29.370, at Erie on the 22d.

Precipitation.

The average precipitation for the state was 6.72 inches, which is double the usual quantity for November. As there was only a slight excess in the northwestern portion of the state, this ratio was more in other parts. The greatest totals were Girardville, 10.16; Meyerstown, 9.99; West Chester, 9.91; Eagle's Mere, 9.27; Pottstown, 9.15, and Lancaster, 9.02 inches. Excessive rains occurred on the 18th and 19th, which caused heavy freshets along the Susquehanna, that carried away railroad bridges and rafts of lumber.

The snowfall during the month was light.

Total excess in precipitation during November at Philadelphia, 3.02 inches.

Total excess in precipitation during November at Erie, 20.2 inches.

Total excess in precipitation since January 1st at Philadelphia, 12.33 inches.

Total excess in precipitation since January 1st at Erie, 5.02 inches.

THE FLOODS IN PENNSYLVANIA, MAY 31 AND JUNE 1, 1889.

The destructive floods, caused by the unprecedented rainfall of May 30 to June 1, in Pennsylvania, call for a brief report for the purpose of relieving the public mind as to the real character of these events, whether they resulted from accident, or from a great and unavoidable general calamity.

This greatest rainfall of the century in Pennsylvania, followed by the most destructive and general flood of modern times, came with ruinous effect on many counties of the state east of the mountains, as well as upon the immediate district drained by the Conemaugh valley. The fearful losses of life and property in this valley have no parallel in our history, and they have naturally received the chief attention of the public everywhere. The immediate cause being the breaking of the South Fork dam, it has been to some extent disconnected from the more general floods in the valleys tributary to the Susquehanna, yet such was the magnitude of the cause, as a whole, that it must be regarded as beyond human control. It is a public duty to define it as clearly as science may do, with all the observations at present available.

It was, in brief, a gigantic rainfall, amounting to an average of eight inches in depth of water, falling on an area of more than twelve thousand square miles, and covering the mountain plateau and its eastern declivities from Johnstown to Harrisburg, and extending northward from Somerset to McKean and Tioga counties. This area of greatest rainfall was oval in form, but broader toward the North Branch of the Susquehanna. Around this central body of flooded country the quantity fell off rapidly to six, four and two inches, although the highlands in Maryland and Virginia at the south, and in northeast Pennsylvania and southern New York had flooding rains of three to five inches in depth. The accompanying map shows approximately the conditions in Pennsylvania, but does not extend the illustration to the adjoining states. The change of quantity is of course not abrupt, but shades off gradually. At Pittsburgh there was only one and a-half inches, although in Ohio, Michigan and Indiana nearly three inches of rain fell on the 29th and 30th of May. There were flooding rains at the same time in Kentucky, Tennessee and West Virginia. In the southeastern counties of this state the rainfall was light, from half an inch to an inch only, although the southeast gale was even more violent there, and it swept Delaware and south Jersey with great force on May 31.

The appalling losses of life at Johnstown, of course, could not have resulted from any storm, however great the rainfall, yet it was apparent at Philadelphia on the afternoon of May 30, and during all the following day that the great heat and violent gale indicated a heavy rainfall

in the interior of the state. Not knowing how great the violence was in the interior it was a surprise that more rain did not fall in the eastern counties, as in fact, it was a flooding storm at Washington and Baltimore during the entire day, May 31.

The general storm or stormy belt formed in eastern Kansas and Nebraska on May 28, moving eastward to Illinois, Indiana and Michigan on the 29th, and at the same time appearing in Kentucky and Tennessee. The whole area of four or five states experienced heavy and general rains, attended by much cold weather, with snow in Michigan and northern Indiana. There were severe frosts in New York and northern Pennsylvania, with fair weather, and in the south it was very cold, with some frosts, and finally snow fell near Chattanooga on the night of May 31. But as the storm was developed in Pennsylvania on May 30, it became very warm, especially in the southern counties, with cyclonic storms in West Virginia and Maryland, attended by much lightning and violent local winds. This condition prevailed in Virginia and at Washington. The 30th, being Decoration Day, the circumstances were very fully reported for that day, and also for the next day, because of the floods.

In the afternoon of the 30th the flooding rains began in the vicinity of Johnstown, and generally eastward to Harrisburg and Washington. Many writers and observers speak of them as the heaviest rains known to their experience; describe them as down-pours, cloud-bursts—and these generally continued for long periods, twenty-four to thirty-six hours. During these periods from four to eight inches of rain fell; in three or four cases more than eight inches, as the observations here given will show. All these measurements were in localities below the general level, and it is evident that much more fell on the higher points and mountain ridges—such greater quantity would more than make up the difference below eight inches, as recorded in the valleys and given in the figures which follow.

It was this vast quantity of water that caused the flood, a flood so great as almost to break new channels of delivery, and shape the river beds anew. In former floods of nearly as great proportions there has usually been ice or snow to cause local obstructions, but there have been none to cover so much of cultivated surface or to bury the towns and cities near the rivers as this done.

It is noticeable that the whole, or nearly the whole, period of heavy rainfall was attended by a southeast wind of greater or less severity. These points are given in the following tabular statement just as they were recorded by the observers of the state weather system. The wind was not so severe in the central counties as it was in the southern and eastern part of the state, and as the rain ceased on the 31st, or morning of June 1st, the wind fell off to a calm, to be followed by a very light west wind, and very little change in temperature. The usual course is

to find a high and cold west or northwest wind at the close of a general storm. There was also very little change on the barometric readings throughout the storm. A general depression of one-fourth of an inch is all that is reported, although there were no barometric records at the stations of the state weather systems generally. The movements of the barometer did not attain the proportions usual in great storms, and there was therefore no sufficient warning derivable from that source. A general rain of moderate proportions was indicated, but nothing more.

Taking the entire area visited by heavy and general rainfall on May 28 to June 1, there is no recorded experience approaching it in magnitude. In eastern Kansas, and over much of Missouri, it reached an average of three inches. In Illinois and all the states intervening to Pennsylvania, the quantity varied from two to four inches; the observers of the several state weather systems reporting very fully. All their reports have been received and consulted in writing this paper. The states southward, including Tennessee, had general and heavy rains nearly equal to those just referred to. And while in the Ohio valley and vicinity of Pittsburgh there was less rain, the first mountainous elevations eastward were deluged with rains: the southern border having several destructive local storms or cyclones, such as are characteristic of the southern border, of an area of general disturbance.

All the natural as well as artificial water-ways failed for drainage in this case, and they were more or less wrecked. The stream beds in some cases formed new channels, and farms that had been worked in security for a century were buried in the waste, and all ordinary embankments were washed away. The canals can scarcely be repaired at such cost as will be warranted by any present use of them. In some cases the position they were given will require to be materially changed. This wrecking of the canals is the most significant expression of the magnitude of the floods.

The purpose of this paper being to give an approximate measure of the storm and rainfall only, it is not practicable to include any specific report of losses, but such report should be made under due authority, and after careful examination of all the localities affected. It is evident from the simple statistics here given, that these floods were an overwhelming and unavoidable calamity; that the circumstances were exceptional and not usual, and that no adequate warning could have been given by state or national authority.

The occasion stands alone in history, and its equal may not occur in another period of like duration with that elapsing since the first settlement of the state—not one century, but two centuries.

In several cases these reports are imperfect. At Carlisle, York and Lebanon they are short of the full quantity, and as these measurements do not include the quantity falling on the night of May 31, and early morning of June 1, there are considerable additions required to make up the total rainfall. In West Virginia and southwestern Pennsylvania the rain began May 30 at 12 M. to 3 P. M., continuing to the close of the next day, 10 or 11 P. M.; but at all points east of the mountains, as at Bedford, Altoona, Lewistown, York, Harrisburg, etc., the rain continued until the morning of June 1, 3 to 7 A. M. The quantities falling during the night do not appear in the above table, and in many cases they were not sent forward with the reports for May, but have now been received nearly or quite complete for June, and are given in a somewhat different form in the following tables, which are intended to afford the best practicable outline of the storm as a whole, and especially of its extension eastward.

The stations west of the flooded districts did not represent any definite period of time, nor any large quantity of water falling: The 30th and 31st of May giving at Erie, 0.78 inch; Greenville, 1.21 inches; New Castle, 2.25 inches; Pittsburgh, 1.50 inches; Clarion, 1.40 inches; Columbus, Warren county, 0.83 inches. For the flooded districts the following list of complete quantities for the entire three days can be given:

At all other points in southeastern Pennsylvania the rain fell in the night of May 31, and early morning of June 1, at hours not closely observed, the quantity being recorded on the day last named only:

West Chester.	1.20 inches.	Swarthmore.	0.67 inches.
Kennett Square.	1.89 "	Philadelphia.	0.58 "
Coatesville.	1.08 "	Germantown.	0.51 "
Frederick.	0.98 "	Smith's Corners.	1.02 "

Northward and eastward the quantities increase slightly, but there was no flooding excess at the regular stations in the northeastern counties. The following quantities were reported as falling in the last ten or twelve hours of the general storm, which continued to the morning of June 1:

Pottstown.	2.70 inches.	Bethlehem.	1.03 inches.
Seisholtzville.	1.93 "	Quakertown.	1.06 "
Lansdale.	1.67 "	Dyberry.	1.17 "
Doylestown.	0.88 "	Honesdale.	0.82 "
Point Pleasant.	0.95 "	Marshall's Creek (or Stroudsburg). . .	1.58 "

At Johnstown the rain is variously reported as beginning at 3 to 4 p. m., May 30, continuing to blow and rain all night very hard. It not only rained but it poured, as the keeper of the South Fork dam reports. Miss Ogle, the station observer at Johnstown, reported 2.3 inches of rain at 11 a. m., May 31; but a few hours later lost her life in the flood. There was evidently more than twice the quantity falling on the mountain water shed than that which fell at Johnstown, which is estimated at 3 to 3½ inches.

The vast weight of water falling is shown by a calculation based on the weight of a cubic foot, thirty-five feet being a ton. In the surface of a square mile there would be 66,377 tons for an inch in depth, and 531,016 tons for a depth of eight inches. The quantity falling on 12,000 square miles, at this rate, is 6,732,246,000 tons. The force exercised by vast bodies of water in motion is irresistible.

The cloud stratum from which the rain fell moved slowly from a few points south of west, with less than the usual rapidity of general storms. It had a peculiar appearance, as of watery saturation, and the scud borne on the southeast wind beneath did not appear to add materially to the rainfall. The wind was one of aspiration, drawn beneath the cloud-body because of the rapid condensation, and not coming from the south or southeast for any considerable distance beyond the extent of the rain and the movement of the upper clouds from which it fell.

In all respects the conditions were the most remarkable and peculiar of those known to attend a general rainfall, and the vast masses of water thrown down over the surface of several states other than Pennsylvania, only add to the difficulty of explaining the origin of the storm, or the source from which so great a body of water can have been derived.

FLOODS IN MARYLAND, VIRGINIA AND NEW YORK.

The overwhelming floods of the James and Potomac rivers in Maryland and Virginia are proof of the vast extent of the rainfall in that direction, but there are very few points at which any measurements have

been taken. There was evidently a quantity equal to four inches of depth on the general surface in all the upland districts of those states, north of the latitude of Richmond.

The newspaper reports speak of much loss of life in the Potomac Valley and many of its tributaries, and of great losses to property and destruction of bridges. The Chesapeake and Ohio canal is reported to be almost completely ruined.

In New York State the Upper Allegheny River and its tributaries were flooded, the water coming from the Pennsylvania side chiefly. The Genessee River was flooded most destructively, the rains extending over two or three counties of that state, as well as on its upper branches in Pennsylvania. The upper branches of the North Branch of the Susquehanna were less affected, although there were great losses at Elmira and on several streams of that vicinity.

Further eastward the highlands of New York had heavy rains and much loss from floods. The Hudson was affected much more than usual and evidently the rains extended beyond it eastward, but not with local destructiveness.

In New England the rainfall was exhausted and it did not reach the coast, although the southeast gale brought high water.

NOTE.—The map referred to in the foregoing flood statement will be found in a pocket in the cover of the book.

VITAL STATISTICS.

The Bureau of Vital Statistics was created by virtue of the act of June 3, 1885, for the purpose of gathering statistics relative to the births, marriages and deaths occurring in the Commonwealth, and to perfect a registration of all physicians. No authority was given this department, except to furnish such clerical assistance as might be needed in the recording of the statistics; the management devolving upon the State Board of Health. Since the creation of the bureau, Dr. Benjamin Lee, Secretary of the Board of Health, has, with the aid of this department, endeavored to enforce, so far as possible, the provisions of the act referred to. The bureau has thus far devoted its efforts largely to the registration of physicians and the compiling of marriage statistics from the returns made by the clerks of the different counties. No returns have ever been required showing the number of births and deaths.

The defectiveness of the law is more apparent each year, as is shown by the continued failure to enforce it, and it should either be repealed or amended so that some authority will be given to enforce a careful and complete return of the subjects covered by the act. Indeed, the act creating the Bureau of Vital Statistics, like many similar acts, is so imperfect that it reflects unfavorably upon the legislative branch of the state government. Even a careful reading of the act will give no certain understanding as to the intention of the legislature in framing it; its terms are couched in the most ambiguous phraseology, and the power to enforce its provisions is entirely lacking. When departments are called upon to execute such laws confusion is certain to follow and unsatisfactory results be reached.

REGISTRATION OF PHYSICIANS.

During the year there have been returned to the department by the prothonotaries of the several counties, 1,984 registrations of physicians. No returns have been received from Snyder county.

The total number of registrations now reported is 10,232.

The following table shows the number of physicians of each sex in each county, those who have no diploma, and the total number registered :

			<u>742</u>

A glance at the above table will show that Great Britain, including Ireland, leads all foreign countries in producing Pennsylvania physicians, having furnished 47 per centum, or 348, of the 742. The proximity of that country to us may have something to do with it, but the result is doubtless attributable mainly to the fact that one language is common to both the United States and Great Britain. England alone has sent us 172, while France, with a larger population, has sent but 23. Germany furnishes 153, but on close examination it will be found that these are largely in the southeastern counties of the state, where a local dialect is spoken that is an offspring of, and very closely resembles the German language.

The registration also shows that 8,676 are graduates from medical colleges. Of these 2,372 are from Jefferson Medical College, and 2,337 from the University of Pennsylvania, both institutions being within our own state. There are also, as reported, 1,104 physicians practicing without diplomas. This is in accordance with a provision of the act of assembly of 1881, allowing those who had been in constant practice for ten years or more prior to the date of its passage, to continue without certificates of graduation.

The following table shows the number of graduates and the names and location of the institutions by which degrees were conferred. Of the 10,232 reported, 9,804 are men and 428 are women. It will be observed that in the counties of Allegheny, Erie and Luzerne, about nine per centum of the physicians are women.

We have no means of determining the number of physicians who may have died or removed from the state since the first registration was made in 1881. In deducing these figures and tables, therefore, we have considered the whole number returned as registered since the law first took effect. There are also some physicians who are registered in more than one county. To what extent this has been done could not be accurately determined, though it is evidently very limited.

MARRIAGES.

There were 2,750 marriages reported during the year, as against about 5,000 the preceding year. What percentage this is of the number solemnized in the state we have no means of ascertaining. Certain it is, however, that it represents a very small fraction. Many counties have made no returns at all, and many others have been incomplete. The total returns, however, made since the creation of the bureau may be of some interest, and also of some value, to those who compile statistics on this subject. The number of males whose ages were given in the returns for the year was 2,748, and the number of females, 2,743. The total number of marriages reported for the past three years was 17,972, and the ages of about 34,000 of the contracting parties were given. Of the males married during the year 3.7 are reported as having married at 20 years of age; 10.7, at 21; 9.7, at 22; 10.3, at 23; 9.9, at 24; 8.0, at 25; 7.4, at 26; 6.0, at 27; 5.2, at 28. These figures show that of the males whose ages are given 71 per cent. married between the ages of 20 and 28 inclusive. Of the females 8.8 were married at 20; 15.0, at 21; 9.7, at 22; 7.4, at 23; 5.1, at 24; 3.7, at 25; 3.9, at 26; 2.4, at 27; 2.3, at 28; or 58.3 per cent. between the ages of 20 and 28 inclusive. Previous reports of 14,726 marriages indicated that 70.6 per cent. of males married during

ages from 20 to 28 inclusive, and that 60.8 per cent. females married during same ages. A compilation made from all the returns received since the creation of the bureau (see table following) shows the number married between the ages of 13 and 86. From this compilation we find that 2 males were married at 16, and 39 at 17; while the greatest ages given of the males was 86 years. There was 1 marriage at 86; 1, at 85; 1, at 81; 1, at 79; and 3, at 78. Of the females 1 is reported as married at the age of 13; 29, at 14; 137, at 15; while the most advanced age of females given was 71, and only 1 at that age.

The returns for the present year, as do those of former years, indicate some remarkable disparities in the ages of the contracting parties. One male of 53 was married to a female of 18; another male of 61 married a female of 65; while a still more remarkable case was that of a male of 74 who married a female of 24. Former returns show a case of similar disparity, thus placing on record two marriages in which the ages of the contracting parties showed a disparity of half a century.

A table following these observations shows the marriages of those between whose ages there was great disparity, and also of those of immature years.

Of the males whose ages are given, viz., 17,469, 455, or 2.6 per cent., married after having reached the age of 50; and 1,303, or 7.5 per cent., married before arriving at the age of 21. Of the 17,469 females whose ages are given, only 165, or .9 of 1 per cent., married after having passed the age of 50; while 6,475, or 37 per cent., married under the age of 21. It will be noticed that 1,565, or 8.9 per cent., of the females married at 20; 2,454, or 14 per cent., at 21; and 1,782, or 10 per cent., at 22. It is a somewhat remarkable fact that 14 per cent. of the females married at 21, while the total number married after 27 years of age was just the same percent. This is in marked contrast to the figures which show that practically the same percentage of males married at 21 as at 22. A calculation made from the table referred to shows that the average age at which females married last year was 22.98, and males at 27.045. Previous reports show the average of the females to be 23.04, and the males 27.04. Of the 17,972 marriages consummated during the year, there were 16,869 in which both parties resided in Pennsylvania; 575 in which the male was a resident of another state; 140 in which the female was a resident of another state; 145 in which both persons were residents of other states. Four males and three females, residing in foreign countries, have inter-married with residents of Pennsylvania, but the records do not show that any females born in Pennsylvania have inter-married with residents of other countries. One hundred and thirty-one American born males married foreign born females; 401 American born females married foreign born males; 659 marriages are reported in which both persons were foreign, and 7,702 in which both were American born. In a large

number of cases the place of birth is not given. One hundred and eight marriages are reported between persons of color, and 2 between colored men and white women. There were 85 marriages in which one of the parties had been previously divorced. Among the causes of divorce are desertion, 46; adultery, 11; cruel treatment, 4; non-support, 1. Twenty-three cases of divorce are reported in which the cause is not given.

BUREAU OF ASSESSMENTS.

The Bureau of Assessments contains:

The records of the state and county rates and levies, as made in the several assessment districts; statistics exhibiting the total assessed value of both real and personal property returned as taxable for state and county purposes; a statement of the amount of all property exempt from taxation; and a record of the number of acres of cleared and timber land.

The principal work of this bureau is to procure from the county commissioners the facts referred to above; to examine the assessment returns, verify them, and compile and tabulate them for publication in the annual reports.

The assessment returns from the several counties of the state, as compared with those of 1888, show a marked increase in the amount and value of all the subjects referred to except the value of salaries, emoluments of office, etc. In the number of taxable inhabitants returned there is a gain of 90,571, the greater portion of which is in the return from Philadelphia, the increase in that county being 79,640 over the previous year. The reports from the counties of Allegheny, Blair, Centre, Cumberland, Franklin, Lackawanna, Luzerne, Mifflin, Warren and Wyoming show a slight decrease in the number of taxables, while Juniata reports the same as last year. The remaining counties give an increase, although in some the gain is less than 100.

There is an increase of 1,931,977 acres of cleared land, and 782,928 acres more timber land reported than last year. The whole amount of cleared and timber land in the state, by actual survey, is 28,808,442 acres, while the total number of acres returned by the assessors, as cleared and timbered land is 23,599,382, leaving 5,209,060 acres not reported. The counties of Carbon, Delaware, Huntingdon, Northampton and Philadelphia failed to make any report on this subject. If the assessments were accurately made the return each year would show an increase of cleared, with a corresponding decrease of timber lands.

The report of 1888 made a decrease of \$4,049,765 in the value of real estate exempt from taxation, from the previous year, with eighteen counties failing to report on that subject. The present report shows an increase in the value of real estate exempt from taxation of \$33,158,564, and the counties of Cambria, Fulton, Mifflin, Monroe, Snyder and Union not making any return of such property. Of course a large amount of this increase is due to the fact that more counties report this year.

In the value of all real estate taxable for county purpose there is an

increase of \$162,508,587 over the previous year. Below is a comparative statement of the counties giving the largest increase on the subject:

Beaver—1889,	\$21,253,611
1888,	7,169,577
Increase,	<u>\$14,084,034</u>
Blair—1889,	\$23,939,043
1888,	7,326,266
Increase,	<u>\$16,612,783</u>
Dauphin—1889,	\$46,652,602
1888,	16,772,323
Increase,	<u>\$29,880,279</u>
Lebanon—1889,	\$29,279,494
1888,	11,469,582
Increase,	<u>\$17,809,912</u>
Monroe—1889,	\$6,172,740
1888,	2,299,617
Increase,	<u>\$3,873,123</u>
Tioga—1889,	\$16,592,270
1888,	9,178,572
Increase,	<u>\$7,413,698</u>

Some other counties show a fair increase in the value of real estate, while twenty-one show a slight decrease. In many districts of the state real estate is assessed at about one-third of its value, and, it is presumed, that in the counties referred to in the above table, an effort has been made to correct this illegal mode of rating property heretofore followed, and that the figures given approximate the actual or cash value, as required by law. That there should be an increase in the value of taxable real estate in Dauphin county of nearly thirty millions of dollars, over sixteen millions of dollars in Blair, fourteen millions in Beaver, and nearly eighteen millions in Lebanon, cannot, by any means, be attributed to the actual increase of the intrinsic value of the real estate. To what then must we ascribe this apparent advance of values? Almost entirely to an effort made, in the counties named, to obey a law which before had been disregarded. To what extent does a disregard of this law exist in other counties? This is a serious question. Its answer might disclose a condition, reflecting upon those who execute the assessment laws, and at the same time be a sad commentary on the equality of taxation; for inequality in assessments of necessity produces inequality in taxation, and, therefore, does violence to the spirit, if not the clear mandates of the constitution. If, in one district, property be assessed at *one-half* its value, in another district at its full value, and both subject to the *same rate* of taxation, then we can readily see how unjustly our tax laws fall upon those who loyally submit, but at the same time must realize that equity does not have full sway in the matter.

There is an increase of 25,404 in the number of horses returned, and an increase of \$1,733,496 in their value, and in the number of cattle the increase is 41,367, with an increase of \$93,071 in the value. The returns for 1888 make the average value of horses and mules \$63.32, while the returns for 1889 make such value \$63.57. The average valuation of cattle, by the return of 1888, was \$19.62, and by the return of 1889, is \$18.52.

The decrease in the total value of salaries, emoluments of office, etc., as compared with the report of last year, is \$11,170,907, which is accounted for in the return from Allegheny county. Last year that county reported \$33,530,357 as the value of salaries, etc., while this year the amount is \$14,846,145, a decrease of \$18,684,212. Had the valuation on this subject, in Allegheny county, been the same as in 1888, the total increase in the State would have been \$7,513,305. We do not know how to account for this remarkable change in Allegheny county. Eighteen other counties show a slight decrease, while the balance report an increase.

The aggregate value of all property taxable for county purposes has been increased \$153,753,981, while there is an increase of \$691,075.74 in the amount of taxes assessed thereon.

All of the counties return money at interest, with the additional amount of \$17,379,281 over the previous year. In twenty-eight counties there is an increase in the amount returned, while in thirty-nine there is a decrease. Philadelphia has an increase of \$19,639,373.

Notwithstanding the efforts of this department to get a full return of the value of stages, omnibuses, hacks, cabs, etc., which are taxable for state purposes, there are still six counties which fail to give any information on the subject. The increase in value, however, over 1888, is \$46,067. The counties not reporting on the value of stages, etc., are Jefferson, Lehigh, McKean, Potter, Sullivan and Wyoming.

In 1888 the aggregate value of all property taxable for state purposes was returned at \$431,111,881, while for the present year it is \$448,537,130, making an increase of \$17,425,249, and the increase in the amount of state tax assessed is \$52,279.97 over the previous year.

Fifty-one counties of the state show an aggregate debt of \$64,477,980.63. As compared with last year there is a decrease of \$1,647,312.03. In ten counties the debt has been increased, while in thirty-one it has been decreased. Seven report the same as last year, and three report debts that did not heretofore do so, while sixteen are reported as free from debt.

Although there is room for improvement, the assessment returns for the present year are more accurate, and come nearer completion, than any that have heretofore been made to this department. The completeness of these returns are due largely to the generous response made by the boards of county commissioners for the information requested.

The detailed reports of county commissioners, together with comparative statements, will be published in Part II of this report.

TAX RETURNS.

During the session of 1889 the legislature of Pennsylvania passed a law by which provision was made for the collection of statistics showing the entire amount of taxes collected, for all purposes, in the several assessment districts of the commonwealth. For many years the legislature has made appropriations to cover the expenses incurred by the revenue commissions that were appointed to prepare equitable revenue laws. All such commissions have found it difficult to prepare such legislation, for the reason that no information could be found which would give to them the total amount of taxes paid for all purposes. A farmer, for instance, might pay a certain amount of tax for the support of county government, which would be a part of the record of his county; but no information was collected to show what amount of taxes he worked out upon the public highways. One of the purposes of the act referred to was to obtain this information, so that in applying revenue laws a thorough knowledge might be had of all taxes levied and collected, not only for county and state governments, but also for ward, city, borough and township governments. Undoubtedly it was the purpose of the legislature to glean this information in order that the constitutional requirement of equitable taxation could be observed in the passage of revenue laws. The act received the approval of the Governor on the 9th of May, 1889, and this department at once prepared the necessary blanks, which, together with a letter of instructions and a copy of the law, was sent to the several boards of county commissioners, and an urgent appeal made to them for a careful and complete return to be made in accordance with the provisions of the act. It is proper to say that much difficulty has been encountered in the preparation of these reports. The commissioners were compelled to write to tax collectors, assessors, city treasurers, mayors and numerous other persons in the several boroughs, cities and townships of their respective counties, and in many instances they state they were unable to get any answers to their letters. In most of the counties the commissioners exhibited the greatest possible energy and devotion in the performance of the duties imposed upon them by this law, and through their efforts we have been able to secure for the first year fairly complete returns from forty-four counties. Among these forty-four counties are included those of Allegheny and Philadelphia, in which a very large percentage of all the taxes of the commonwealth are collected. The counties making returns show a total of taxes collected of \$29,326,912.61, of which amount Allegheny county collected \$5,833,310.86, while Philadelphia appropriated to the several purposes indicated in the return of that county \$11,850,172.44. It will be observed, by ref-

erence to the return from this county, that the amounts given do not indicate that such amounts were collected for any specific purposes; but were the result of a general levy for the maintenance of city and county government, and the distribution for particular expenditures was made by virtue of ordinances passed by councils.

Some deductions might be made from these returns which would be of some public interest, but owing to the fact that they are incomplete, twenty-three counties not having made any returns, we have concluded that a publication of the detailed returns, together with a consolidated statement thereof, will be sufficient for the present year. Deductions made under the circumstances might be misleading. These reports, with consolidated statements, will be found in Part II of this report. The act to which we have made reference is as follows:

AN ACT

Providing for full and complete compilations and returns, to the Department of Internal Affairs, of all taxes levied and collected in the wards, boroughs and townships of the several counties of the commonwealth.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That it is hereby made the duty of the county commissioners of each county of this commonwealth, including the board of revision of the city of Philadelphia, at the expense of the state, to procure from the proper persons and officers of the wards, boroughs and townships of their respective counties, full and complete returns showing the entire amount of taxes levied and collected, or worked out, for the maintenance of state, county, city, ward, borough and township governments. It shall also be their duty to make a specific return on the following subjects.

First. The total amount of taxes collected for the support of the poor.

Second. The total amount of taxes collected for the construction and repairs of roads and bridges.

Third. The amount of taxes collected in each year on personal property, on occupations and for licenses.

Fourth. The amount of taxes collected on the real estate of railroad corporations.

Fifth. The amount of taxes collected on the real estate of corporations other than railroads.

SECTION 2. That said commissioners shall cause such returns of taxes to be made out in tabular form, by assessment districts, on the first day of June in each year, and such statements shall cover the entire collection of taxes for the year immediately preceding the said first day of June, and shall be made out in accordance with forms for that purpose, which shall be prepared and furnished by the Secretary of Internal Affairs, and when so made out the same shall be forwarded to the Secretary of Internal Affairs, at Harrisburg, on or before the tenth day of June in each year. And in case the commissioners of any county

shall refuse or neglect to make out such returns, the same may be enforced by mandamus.

SECTION 3. Any persons or officers having possession of information called for in this act, who shall refuse to supply the county commissioners with the same when demanded by them, shall be guilty of a misdemeanor, and on conviction thereof shall be sentenced to pay a fine not exceeding two hundred dollars, to be collected as other debts of like amount are by law now collectible.

JAMES A. BEAVER.

APPROVED—May 9, 1889.

By virtue of the duties imposed on this department, and with a view of immediately collecting all the information contemplated by the act, the circular hereinafter printed was forwarded to the several boards of county commissioners.

COMMONWEALTH OF PENNSYLVANIA,
DEPARTMENT OF INTERNAL AFFAIRS,
HARRISBURG, May 22, 1889.

To the County Commissioners County :

GENTLEMEN: We send you herewith a copy of an act entitled "An act providing for full and complete compilations and returns to the Department of Internal Affairs, of all taxes levied and collected in the wards, boroughs and townships of the several counties of the commonwealth," approved May 9, 1889.

The department desires to call your attention particularly to the provisions of this act, and to the duties imposed upon the commissioners of the several counties and upon others having in their possession statistics regarding the collection of taxes, which, under the provisions of said act, are to be *collected, compiled and returned to this department.*

Under the act approved May 15, 1874, the county commissioners are required to make returns to this department of the total amount of real and personal property assessed in the several districts of their respective counties for *state* and *county* purposes; the total amount of tax levied, and the total amount of county debt. It was evidently the intention of the legislature that this information, when collected and compiled, should be used as a basis for the enactment of equitable revenue laws. The result, however, has demonstrated the fact that no satisfactory data can be derived by virtue of the laws referred to, for the reason that nothing can be ascertained as to the rates of taxation, or the total amount of taxes collected, in the several cities, wards, boroughs and townships, for the maintenance of local government and other expenses incidental thereto.

During the last ten years the legislature has, at considerable expense to the state, made provisions for the appointment of revenue commissions to examine into, report and recommend to succeeding legislatures equitable measures regarding taxation; but no measures have been rec-

commended by these commissions that have enabled the legislature to pass laws which conform strictly to the spirit of the constitution on the question of equity, or that would apply with entire justice to all classes of people, for the reason that no means were provided by which the commissions were able to ascertain the amount of taxes paid by the people in the several cities, wards, boroughs and townships for local expenses.

The act, of which we send you a copy, imposes upon you a duty which should receive your most careful and conscientious consideration. It will undoubtedly devolve upon you a large amount of work, but we trust that your regard for the welfare of the people of your county and of the commonwealth generally, and your desire that taxation shall be just and equal, so far as it is possible to make it, will impel you to comply with the provisions of the law, so far as they relate to you, and exact a strict compliance therewith from those whose duty it is to report to you the amount of taxes collected in their respective districts. If the commissioners of all the counties of the commonwealth will perform the duties thus imposed upon them, the next legislature will be able to act understandingly in the passage of laws which will rest equitably upon all subjects of taxation, and at the same time be just in their application to individuals and corporations.

We have prepared, and transmit herewith, a blank form on which the compilations may be made and returned to this department. We especially call your attention to the instructions printed on the back of this form, *which please read carefully*.

It will be observed by reference to the first section of the act referred to, that the state is to bear the expenses of the collection of these statistics; but no provision has been made, by appropriation or otherwise, to defray any of the expenses incident thereto, and we must, therefore, rely upon your public spirit and devotion to the interests of the people, for the performance of the duties imposed by this act.

The returns for this year will embrace the entire collection of taxes within the fiscal year closing *June 1, 1889*. Of course, it will be impossible for you to comply strictly with the act as to the time of transmitting your report to this department for this year; but we trust that you will approximate as nearly as you conveniently can to the time prescribed for the returns.

Information regarding taxation is highly important. The subject is one in which the people are deeply interested, and not only the state authorities, but the county commissioners of each county, should be thoroughly informed thereon.

Respectfully yours,

THOMAS J. STEWART,
Secretary of Internal Affairs.

BUREAU OF INDUSTRIAL STATISTICS.

The frequent conflicts arising between the employed and the employer have rendered the work of the Bureau of Industrial Statistics of much public importance, and it will continue of importance until the combined wisdom of impartial men shall succeed in perfecting a plan for the equitable adjustment of the complicated questions that are constantly arising in the investment of capital and the employment of labor.

The province of the bureau is, first, to make impartial examinations of the relations existing between capital and labor; of the educational, industrial and social conditions of those engaged in manual labor, and to enunciate and advocate those principles of political economy which, if adopted, would tend to better the condition of all industrial classes; second, to collect, compile and publish labor statistics gathered from the employed and the employer; and, third, to publish the mine inspectors' reports from both the anthracite and bituminous coal regions, supplementing the same with statistics of the accidents that occur in mining operations.

In reference to this bureau, made in the report of the department for 1888, attention was called to the fact that the United States government, and also several of the state governments, employed collectors of statistics, upon whom was imposed the duty of visiting the manufacturing centers, with a view of getting accurate information as to the kind and amount of goods manufactured, as well as to glean all possible information regarding the interests of the laboring classes; and the necessity for having such collectors in Pennsylvania was strongly set forth. In pursuance of the suggestions made by this department, the Governor, in his message to the last legislature, recommended that two competent persons be employed as such collectors in this commonwealth, and, acting on this suggestion, a bill was prepared and introduced in the legislature, and on the 4th of April, 1889, it became a law. By the additional force thus given the Bureau of Industrial Statistics, it is expected that better results will be had, and that the reports of the bureau will be of greater interest to the public generally, and of especial value to the laboring classes, while at the same time they will present to the country at large a much more extended knowledge of the intrinsic worth of the great manufacturing interests of the commonwealth. The operations of the bureau are published in Part III of the reports of this department. The law referred to is here given:

AN ACT

Authorizing the appointment of collectors of statistics, prescribing their duties and providing for their compensation.

WHEREAS, Great difficulty has been experienced in the Bureau of Industrial Statistics of the Department of Internal Affairs in securing proper returns to circulars sent out for the purpose of gathering statistics;

And whereas, It will be necessary to employ special agents, as is being done by other states, to travel throughout the commonwealth, to gather reliable information in regard to the relations existing between the employer and the employed, as well as to secure valuable information regarding the manufacturing, agricultural and commercial interests of the commonwealth; therefore,

SECTION 1. *Be it enacted, etc.*, That the Secretary of Internal Affairs be, and is hereby; authorized and empowered to appoint two additional employes in said department, who shall be designated and known as collectors of statistics. It shall be the duty of said collectors of statistics, under the supervision of the Secretary of Internal Affairs, to visit the different industries of the commonwealth, make careful and impartial inquiry into the relations existing between the employer and the employed, collect and compile statistics bearing on the social, educational and industrial condition of the laboring classes. It shall also be the duty of said collectors to gather and compile productive statistics on agriculture, mining, manufacturing, commercial and other business interests of the commonwealth, and perform such other duties in connection with the Department of Internal Affairs as may be required by the secretary thereof.

SECTION 2. That each of said collectors of statistics shall receive as compensation for such services, a salary of fifteen hundred dollars per annum, and shall, in addition thereto, be reimbursed for traveling and other incidental expenses, made necessary in the collection of statistics, which expenses shall be paid on vouchers, itemized and duly sworn to by said collectors of statistics, and certified to by the secretary.

APPROVED—The 4th day of April, A. D. 1889.

BUREAU OF RAILROADS, CANALS, TELE- GRAPHS AND TÉLÉPHONES.

All corporations of the commonwealth operating railroad, canal, telegraph and telephone lines are required to make annual detailed reports to this department, showing the capital subscribed and paid in, the indebtedness, amount of business done, rates of transportation, amount of tonnage, cost of operation and maintenance, percentage and amount of dividends, number of accidents (with extent of injuries) to employes, passengers and others, and many additional facts of public interest; all of which are embraced in Part IV of the annual report of this department.

A penalty of five thousand dollars may be imposed upon any corporation that fails to make report, in pursuance of the law, of the facts above enumerated.

APPENDIX.

BOARD OF PROPERTY.

A Board of Property, consisting of the Attorney General, Secretary of the Commonwealth and Secretary of Internal Affairs, is authorized by law.

Its powers are to "hear and determine in all cases of controversy on caveats, in all matters of difficulty or irregularity, touching escheats, warrants on escheats, warrants to agree, rights of pre-emption, promises, imperfect titles, or otherwise, which may arise in transacting the business of the said Land Office."

The present Board consists of

WILLIAM S. KIRKPATRICK, *Attorney General.*

CHARLES W. STONE, *Secretary of the Commonwealth.*

THOMAS J. STEWART, *Secretary of Internal Affairs.*

Stated meetings of the Board will be held on the Wednesday following the third Tuesday of each alternate month of the year 1890, to wit: January 22, March 19, May 21, July 16, September 17 and November 19.

Regulations.

I. A caveat may be entered against the granting of a warrant, acceptance of a survey or granting of a patent. It must be in writing and addressed to the Secretary of Internal Affairs. A particular form is not required; but the application, survey or other office right against which it is entered, together with the reason for filing the same, should be distinctly stated.

II. A caveat entered against the granting of a warrant on any application on file bars the issuing of a warrant, unless, after hearing upon a citation, the Board should dismiss the same.

III. No caveat, note on survey, nor writing in the nature of a caveat, shall continue to bar the issuing of a patent to the person or persons against whom such caveat may be entered during a longer period than two years, unless the parties interested in the land shall within the term mentioned take out a citation thereon, in order to bring such dispute to a decision and prosecute the same to effect.

IV. A citation will be issued on a pending caveat on the application of any party in interest. Thirty days' notice must be given to the opposite party of the time at which the case will be heard by the Board,

and either party desiring to take the depositions of witnesses to be read at the hearing is required to give the other ten days' notice of the time and place for taking such depositions.

V. The party who enters a caveat becomes plaintiff in the issue joined, and at the hearing shall open the case and may make the concluding argument.

VI. A petition for the rehearing of a case that has been heard and decided will not be considered unless the party presenting the same shall furnish evidence that the opposite party has had at least ten days' notice of the intention to present said petition.

VII. A petition for an order of re-survey must recite the name of the warrantee and date of warrant upon which the former survey was made, and state the reasons for such re-surveys.

VIII. Depositions of witnesses submitted to the Board become a part of the record and cannot be withdrawn.

IX. Citations must be returned to the Department of Internal Affairs on or before the days fixed therein for the hearing of the cases in which they are issued. All acceptances of notice and agreements to continue cases must be in writing.

X. Parties will be heard in person, or may be represented by counsel, as they may elect.

XI. The fees to be charged for the use of the commonwealth in business relating to the Board are as follows:

Entering caveat,	\$1 00
Issuing citation,	1 00
Recording application for re-survey,	1 00
Order of re-survey,	1 00
Copy of action or determination of Board,	1 00

XII. All communications for the Board should be addressed to the Secretary of Internal Affairs.

WARRANTS AND SURVEYS.

A warrant or order of survey authorizes the survey of vacant lands only, as they alone belong to the commonwealth to grant; but whether the lands applied for are vacant or not, the land officers do not undertake to examine, and in most instances do not possess the means of ascertaining. Of this the applicant must judge for himself. If he know them to be appropriated by prior right, it is against conscience to take out a warrant for them or to have them surveyed as vacant. But he may assert the invalidity of a former grant and insist on a survey. In that case the deputy surveyor ought, if it be known to him, to note it in his books and return of survey.

Returns of Surveys.—Having finished the survey and plotted it, the surveyor ought to return it to the office of the Secretary of Internal Affairs. This is an important part of his duty. Many regulations and

laws have from time to time required it, and from its omission frequent disputes have occurred. The deputy surveyor, however, is not obliged to return the survey until his fees and expenses are paid; and if the failure to return is occasioned by the neglect or refusal of the party to defray them, any loss thereby sustained is imputable to him, and not to the officer. The regulation of the proprietaries and the acts of assembly concur in directing the return to be made on paying for the survey.

* * * * * If the party pay or tender the fees, it is the duty of the surveyor to return the survey in a convenient time, and the neglect or fraud of the surveyor will not affect his rights. But it lies on the party to show that the want of the return was not occasioned by any fault or neglect of his own; and, if there is nothing to show that the surveying fees were paid, the inference is that they were not paid. The deputy, being a sworn officer, is, *prima facie*, presumed to have done his duty.

PATENTS.

A patent is a deed from the commonwealth, under its great seal, conveying to the grantee all its rights in the land, describing it by metes and bounds, and it passes, as respects the commonwealth, the complete legal title; all the preparatory measures of warrant, application, survey and acceptance being merged in the patent. The granting of a patent is *prima facie* evidence that all the previous requisites have been complied with. Before a patent can be issued the purchase money due, and the patent fee, must be paid; and the land is thenceforth discharged from the lien which till then existed. Generally, the rights of the grantee are concluded by the lines and boundaries described in the patent, though perhaps in a special case there might be an exception.

Third persons claiming by warrant, application, settlement or otherwise, may show that the patent was wrongfully issued to the patentee; or, rather, that he is trustee for him who has the right, the material consideration being, not who has the patent, but to whom it ought to have been granted—for the land officers, in issuing the patent, act merely in a ministerial capacity, and cannot change the rules of law or rights of parties. And even though he who has the patent sell to a *bona fide* purchaser without notice, the vendee is in no better situation. His claim under the patent may be contested by one having a better right by settlement, warrant or location. These titles are not equities within the ordinary rule of being unavailing against a purchaser of the legal title. A patent founded on a fraudulent survey, or obtained by misrepresentation and deceit, is void against third persons affected by it.

A patent, however, has always been received in evidence in the first instance, to show that the legal title was out of the commonwealth. The question whether it is good is a subsequent one.—*Sergeant's Land Laws*, p. 155.

The following regulations, relative to issuing patents, are published for the information and guidance of owners of unpatented lands :

1. The patent must issue to the actual owner of the land, or party holding title under the warrantee, or to the executors, trustees, or heirs and legal representatives of the person in whom title was vested at death, or to the guardians of minor children of the deceased.

2. Warrantees who remain the owners of the land warranted and surveyed to them can obtain patents in their own names (if no caveat remains undetermined), without furnishing any brief or statement of title, upon payment of back purchase money, interest and fees.

3. Executors, trustees and guardians representing the warrantee, or his heirs, who apply for patents, must produce evidence of their appointment as such.

4. When the land has passed out of the ownership of the original warrantee, or party who took out the office right, the applicant for patent will be required to furnish evidence of ownership.

5. The present owner of a part of a tract of land surveyed in pursuance of any given warrant, desiring to have a patent in his own name, can obtain it by having the county surveyor make return of survey of such part. In making the survey, the county surveyor must, besides giving the courses and distances and quantity of acres, in the particular part, indicate the residue of the original tract by dotted lines. The applicant will only be required to pay his proportion of the whole amount due on the tract, with fees. Evidence of ownership must accompany application.

6. When an unpatented original tract has been sold and sub-divided the several present owners may unite in an application and statement of title for a patent, and, upon payment of amount due, with patent and other fees, a patent will issue to them, the said applicants, their heirs and assigns, according to their respective rights and interests, without setting forth therein the particular interest of each.

7. In cases where it is difficult to submit the evidence of title required by this department, in order to obtain a patent, any one or more of the owners of the unpatented tract can, through this department, discharge the lien against said tract by the payment of the purchase money, interest and fees, shown to be due by the land lien docket, and the interest since accrued, and a patent can at any time afterward be issued to those entitled to it, upon proof of ownership.

8. The accounts in the lien dockets are calculated to June 1, 1868. If to the amount due, as shown in its proper column, there be added the interest accruing from June 1, 1868, to the date of forwarding the docket to the prothonotary, at the rate given in the column of rate per cent. of interest, and on this sum interest be calculated at the rate of six per cent. from the time of forwarding the docket until the date of the application for patent, it will give the amount required to procure a patent.

(See 2d sec. of the act of the 20th of May, 1864, printed on a subsequent page.) But interest is not charged on patent or other fees. (See act of the 5th of May, 1871.)

A statement of the amount due on any particular tract or tracts, or any other information in relation thereto, will be promptly furnished on application to this department.

Persons sending money to the Department of Internal Affairs for payment of arrears on unpatented lands and for records, etc., should send by registered letter, postal order, or express. Drafts, checks, or post office money orders must be made payable to the order of the Secretary of Internal Affairs.

MISCELLANEOUS.

The indorsement, similar to this, "Returned, etc., February 22, 1815," frequently found on copies of warrants and surveys, does not mean the date at which the return or survey was received at this office, but the date at which the Surveyor General made a return of the tract to the Secretary of the Land Office for patenting. And when such indorsement is found on the back of a copy of a warrant or survey, even at the date at which the office of the Secretary of the Land Office was discontinued, it is an evidence, in perhaps ninety-nine cases out of one hundred, that the tract is patented. Some exceptions have been found. Why the custom of marking the warrants and surveys thus, was introduced when a tract was patented, after the office of the Secretary of the Land Office was abolished, on the 10th of May, 1844, is not apparent. This custom was discontinued on the 1st of January, 1868, and the indorsement, "Patented to ———, 18—," was substituted.

A mistaken idea, prevalent with many people not familiar with the Land Office, is that the department has connected drafts, showing the location of every tract of land surveyed in the several counties, and that, therefore, whatever of vacant land there may be in the state can be readily found at this office, and that information can, without difficulty, be given as to the adjoining surveys of any named tract, without advising the department of the names and dates of the warrants upon which such surveys were made. Had the lands of the commonwealth been first surveyed and afterwards sold, this idea would have been correct, but the very reverse was the fact, for the lands were sold and warrants for subsequent surveys issued. And, because of this policy, the department has only single and unconnected copies of the surveys. Unless a given survey calls for warrantee adjoiners, it would be a work altogether out of proportion to the fees allowed to undertake to search out all the warrants and surveys, perhaps for a whole county, in order to find the adjoining tracts, or search for a supposed vacant piece of land; but the task is comparatively easy when the party seeking the inform

ation learns, as he readily can from the county surveyor, or persons in the neighborhood, the names of all the surrounding warrantees and dates of warrants, and communicates that data to this department.

It will be observed, from the foregoing, that in communication with the department, it is of the first importance to give the name of the warrantee and date of warrant of the survey or patent about which inquiry is made; but when the date of warrant cannot be given, the party asking for official copies or information should give quantity of acres, location, the warrantee name of adjoining tract, or tracts, and any other data in his possession that will aid in searching for the tract.

Frequently applications for warrants for land, made out in due form, are sent to the department unaccompanied by the purchase money and warrant fee, and as warrants cannot issue until the proper amount of money has been paid into the state treasury, and, until all the requirements of the law have been complied with, the applications thus made gain no priority over others that may be made for the same lands.

The law does not contemplate that credit should be given on account of fees for searches and official copies; and, therefore, to save correspondence and insure more speedy attention, the proper amount of fees should be sent with each order. If too much is forwarded, the surplus will be promptly returned, with the official papers asked for.

INSTRUCTION TO COUNTY SURVEYORS.

I. Execution of Warrants.

1. You shall faithfully execute every warrant that may be directed to you from this department, to the best of your skill, knowledge and understanding, *according to the express words* and order of such warrant, and not otherwise.*

2. You shall not make use of any chain-carriers but such as are of good character, who shall take a solemn oath (which you are authorized by law to administer) justly and exactly to execute their trust, without favor, partiality or affection.†

3. You will not, under any circumstances, execute new warrants upon lands heretofore surveyed on old warrants or orders, but report, as nearly as possible, the circumstances relating to the same. And before you make return of any lands surveyed by you on new warrants, endeavor to be satisfied that no warrant of an earlier date has been issued for the same land; and on your return, certify whether the lands have been improved, and, if so, for how many years.‡

4. You must not execute a warrant on any other land than that which it particularly describes; and in order that your return of survey may show that the warrant has been properly executed, it will be necessary for you to be particularly observant of the *adjoiners mentioned in the warrant* :

* ¶ 1 of instructions of the Commissioners of Property to Isaac Taylor, Proprietary's surveyor for the county of Chester, signed by said Taylor, on the 28th of eleventh month, 1701.

† ¶ 6 of same.

‡ Adopted February, 1796.

and where there has been any change in them between the issuing and executing of the warrant, it must be noted in your return of survey.*

5. You will be particularly careful in executing warrants granted after the 1st day of June, 1814, and not founded on actual settlement, not to interfere with the rights of settlers; and in all cases where an actual resident settlement is included, note on your return whether it was commenced prior or subsequent to the 28th day of March, 1814.†

6. You shall not make return of any survey but such as has actually been made on the ground; and you shall take care that all outlines and boundaries shall be fairly and visibly marked before you quit the field.‡

II. Returns of Surveys.

7. You are to make a separate return of survey on each warrant or order issued from this Department within six months after the receipt thereof. §

8. Each return of survey must conform with the following requirements, to wit:

I. The paper or parchment used must be of the dimensions of at least eight by twelve inches.

II. It must contain a protracted figure of the land, exactly performed, with the field work annexed.§

III. All streams of water, roads, railroads, canals, township or county lines intersecting or crossing the lines of the survey must be distinctly and visibly marked on the draft at the very place of intersection or crossing, and the distance from the corners expressed in figures on the lines crossed.||

IV. The lines of so much of the adjacent surveys as may serve to show their connection with the survey returned must be represented on the draft by dotted lines.**

V. When a survey is bounded by a creek or river, the bearings and distances of the several meanderings must be given.††

VI. Note, whenever they can be obtained, the *warrantee* names of adjoining tracts, as well as the names of the present owners thereof should be given.

VII. The certificate on each return of survey must be made in accordance with the proper form, as printed in the annual reports of the department.

* Adopted in 1813.

† Adopted in June, 1814.

§ ¶ IV of instructions issued in 1765.

|| Adopted 1813.

** From ¶ 6 of instructions issued in 1796.

†† From ¶ 3 of instructions issued in 1796.

9. When you return a survey of a part of a tract of land for patenting, you must specify the name of the warrantee, the date of the warrant and the number of acres contained in the whole tract, and on the draft represent the residue of the tract by dotted lines.* But you are, in no event, to make and return to this department a "resurvey" of a tract, either to include more land or to exclude any part, or in anywise alter the original boundary lines thereof, *unless authorized to do so by an order of the Board of Property*. When an order of resurvey has been issued, and sent to you for execution, you are strictly to follow the directions therein contained.

10. You may make official returns of surveys actually made by your predecessors, after having satisfied yourself of their correctness, and that they have been located according to the calls of the warrants.†

11. Surveys intended to be returned to this department must be made or approved by you.

12. You may survey and return any surplus not exceeding one hundred acres above the quantity mentioned in the warrant, location, or order of survey. The purchase money for all the surplus land surveyed on warrants must be first paid into the state treasury before the return of survey can be accepted in this department, of which you will give notice to the owner or owners of such warrant, and always send the money to pay the excess with the return of the survey.‡

13. All returns of survey, in order to conform with the files of the department, should be folded as follows: Double the sheet by bringing the upper and lower edges of the sheet evenly together, then fold in each side so as to make a form about two and seven-eighth inches wide, and in length from six to seven inches, according to the size of the sheet. The back of the return should be left blank.

14. With each return of survey send a copy of the tabling and calculation thereof on a separate piece of paper.§

15. All returns to this department must be under cover, directed to the Secretary of Internal Affairs, with your name subscribed on the back of the paper or envelope inclosing the same.||

III. Office Duties.

16. You will keep your office open for the reception of all warrants directed to you, which shall be entered in a book kept for that purpose, designating therein the name of the warrantee, quantity of land granted, date of warrant, and the day when you received it. Also, in another book, you will keep fair and regular entries, in order of time, of all sur-

veys and resurveys made by you in pursuance of any warrant or order of survey which you may receive, with a draft or plot thereof, and a copy of the field notes. And the Secretary of Internal Affairs shall, from time to time, have free access to said books of entry and to all other papers relating to your office, which books and papers shall be delivered by you to your successor.*

17. Under the provisions of the constitution of 1873, you are required to keep your office at the county town: but if you desire letters sent to any other address, advise this department.

18. Before you can enter upon the duties of your office, you must comply with the seventh section of the act of assembly passed the 9th day of April, 1850, which requires you to take an oath or affirmation, which must be administered in the open court of quarter sessions;† to send a copy of said oath, duly certified, to this department; and to have your bond approved by the court, and recorded in the office for recording deeds in the proper county, and to forward the same to the Secretary of the Commonwealth, with one dollar, the fee for filing in his office.

* ¶ VIII of the instructions of 1765.

† Constitution, Art. VII, Sec. 1, requires oath of all county officers to be filed in the office of the prothonotary of the proper county.

RECENT LEGISLATION RELATING TO THE LAND OFFICE.

COUNTY SURVEYORS.

Their Duties.

Under the proprietary government, deputy surveyors were appointed by the Proprietary, the Commissioners of Property, or the Surveyor General, for certain districts, and given authority to execute warrants or orders, by making surveys and returns thereof to the Land Office. The duties of these deputies were defined by letters of instructions, issued from time to time. Those dated the 28th of eleventh month, 1701, revised and enlarged in 1765, contain such directions as were then deemed necessary for the information and guidance of the deputies, and formed the basis of those now in force. The act of assembly of the 9th of April, 1781, establishing the Land Office under the commonwealth, authorized the Surveyor General to appoint a deputy or deputies in any county of the state, who should have power to make and return into the Land Office surveys of land only in the county for which such deputy or deputies shall be appointed; and the act of 1st April, 1784, by virtue of which the Land Office was opened on the 1st day of July following for the sale of the vacant lands of the commonwealth, directed that its several officers should transact the business of the Land Office, agreeably to the former customs and usages thereof. By subsequent legislation, the duties of the deputies were more clearly defined. The act of 9th April, 1850 [P. L. 434], authorized the voters of each county, at the following general election, and every third year thereafter, to elect one competent person, a practical surveyor, to act as county surveyor for the proper county for the term of three years, who is required to do and perform all the duties which then pertained to the respective deputies of the Surveyor General.

Term of Office.

[Constitution, Art. XIV.]

SECTION 1. County officers shall consist of sheriffs, coroners, prothonotaries, registers of wills, recorders of deeds, commissioners, treasurers, surveyors, auditors or controllers, clerks of the courts, district attorneys, and such others as may, from time to time, be established by law. * *

SECTION 2. County officers shall be elected at the general elections,

and shall hold their offices for the term of three years, beginning on the first Monday of January next after their election, and until their successors shall be duly qualified; all vacancies not otherwise provided for shall be filled in such manner as may be provided by law.

To Keep Office in the County Town.

SECTION 4. Prothonotaries, clerks of the courts, recorders of deeds, registers of wills, county surveyors and sheriffs shall keep their offices, in the county town in which they respectively shall be officers.

To Hold Office until Successor is Qualified.

[Act of 17th April, 1869. P. L. 67.]

A supplement to an act entitled "An act relative to the election of Auditor General, Surveyor General, and county surveyors by the people," approved April ninth, one thousand eight hundred and fifty.

SECTION 1. That the persons now or hereafter holding the office of county surveyor shall continue to hold and exercise all the duties appertaining to said office until their successors are duly qualified according to the provisions of the act to which this is a supplement.

Fees.

[Act of 13th April, 1859. P. L. 606.]

An act relating to the fees of county surveyors.

SECTION 1. That the several county surveyors of this commonwealth shall be and are hereby authorized to charge and receive for the services hereinafter mentioned the following fees, and no more, to wit:

For receiving warrant and giving receipt for the same, if required,	\$0 25

EXCESS.

[Act of 21st April, 1860. P. L. 67.]

An act relative to returns of surveys to the office of the Surveyor General.

SECTION 1. That so much of the second section of the act approved the sixth day of April, Anno Domini one thousand eight hundred and thirty, as restricts returns of surveys on warrants thereafter to be issued

to an amount not greater than ten per centum beyond the number of acres for which the warrant issued, be and the same is hereby repealed: *Provided*, That any excess which may be returned under the provisions of prior laws shall be paid at the time of making such return of survey to the Surveyor General, otherwise the same shall not be accepted.

[Any surplus not exceeding one hundred acres may now be returned on any warrant or order of survey, provided that the money for such surplus accompanies the return. See paragraph 12 of "Instructions to County Surveyors]."

FEES.

[Act of 15th April, 1873. P. L., 75.]

An act relating to the fees of the Surveyor General.

SECTION 1. That from and after the passage of this act the fees to be collected by the Surveyor General for the use of the Commonwealth shall be as follows, namely:

[Act of 20th May, 1864. P. L. 914.]

An act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of locations or other office titles.

1. SECTION I. That it shall be the duty of the Surveyor General to make out a list of all lands held by location, or any other office right, issued from the Land Department of this commonwealth, of every kind and description, upon which no patents have issued, designating the county in which such lands are situated, with such other descriptions of

the same as the records of his office will enable him to give, including the names in which such locations or other office rights are entered, and surveys have been returned; and on the list being completed, or any part thereof, be transmitted to the prothonotary of the county in which such lands are situated.

2. SECTION II. That it shall be the duty of the Surveyor General to calculate the amount of purchase money, interest and fees, due on each unpatented tract; and after the descriptions of said tracts have been transmitted to the prothonotaries of the respective counties, and entered, as hereinafter provided, the amounts so found to be due, together with five dollars for the labor and costs of making out and filing, shall form an aggregate sum which shall be entered in a lien docket to be provided, and kept for that purpose, and said sum shall bear interest at the rate of six per cent.

3. SECTION III. That it shall be the duty of the prothonotary of each county, upon receiving any descriptive list as aforesaid, to provide a suitable docket, with a proper index, for the purpose of recording all such descriptions of unpatented lands, and shall accurately record the same and index the name of the original warrantee or actual original settler, as the case may be, and each subsequent owner so far as ascertained, and preserve the same among the records of the county: *Provided*, That when any party in interest, by petition under oath or affirmation, setting out the facts in the case, as in affidavit of defense, shall represent to the president judge of the court of common pleas of the county, in which any tract or piece of land, against which the entry directed in the foregoing section has been made, or the principal part thereof, may lie, that said tract has been patented, either in the name against which the entry is made, or in any other name, the said judge shall, after such notice to the Surveyor General as he shall deem proper, proceed to hear the case of the petitioner; and the said judge shall, thereupon, make such decree in the premises, either by directing the said entry to be struck from the record, or such other order as to said entry, and also as to costs, as may seem equitable.

4. SECTION IV. That it shall be the duty of the prothonotary of each county, upon receiving from the Surveyor General any such list or calculation of amounts due the commonwealth for purchase money, interest, and fees, to provide a suitable docket with index, in the form of the lien dockets now in use in the several counties of this commonwealth, to be styled "Lien Docket of Unpatented Lands," and enter therein the amount so found to be due, which sum shall remain a lien upon such tract or tracts, until paid; and that a fee of fifty cents be paid to the prothonotary for each description so entered, and that he be allowed the same fees on the liens entered, as are now allowed on judgments entered by warrant of attorney in the court of common pleas.

5. SECTION V. That it shall be the duty of the prothonotary, upon re-

ceiving any such descriptive list, to cause the same to be published in two newspapers in the county where such lands are located, for three successive weeks, for which publication he shall be authorized to pay fifty cents for each tract, and charge the same as costs on the lien docket, and retain his fees and costs out of any moneys, in his hands, due the commonwealth.

6. SECTION VI. The amounts which may be due to the commonwealth on the lands mentioned in the first section of this act, may be paid in accordance with the existing laws in relation to such lands, if the same be paid prior to the first day of November next: *Provided*, That any costs, which may have accrued in accordance with the provisions of this act, shall also be paid, and that the act to graduate lands on which money is due and unpaid to the Commonwealth of Pennsylvania, approved April tenth, Anno Domini one thousand eight hundred and thirty-five, be revived and continued in force, until the said first day of November next; and any survey and appraisements, made since the first day of August last, shall have the same validity for the issuing of patents thereon, as if the last mentioned law had been still in full force.

7. SECTION VII. That all liens due the commonwealth for unpatented lands, after the first day of November, Anno Domini one thousand eight hundred and sixty-four, may be proceeded upon by the Attorney General of the Commonwealth, in the manner directed to be pursued against defaulting public officers, by the act of April sixteenth, one thousand eight hundred and forty-five, and the supplement thereto.

8. SECTION VIII. All persons in the military or naval service of the United States, shall be allowed one year after the expiration of said service, for the taking out of any patent or patents under the provisions of this act.

9. SECTION IX.* That, hereafter, the patent fee, on town lots not exceeding one-fourth of an acre, shall be one dollar, and on lots not exceeding two acres, five dollars.

[Act of 4th April, 1868. P. L. 60.]

A supplement to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini eighteen hundred and sixty-four.

10. SECTION I. That in lieu of the descriptive lists provided for in said act, it shall be the duty of the Surveyor General to make out and forward to the prothonotaries of the several counties, lien dockets, to be styled "land lien dockets," containing lists of all unpatented and patented lands, situate in the counties respectively, upon which there is money due the commonwealth, and in all cases where surveys have been returned, to enter therein the amount of purchase money, interest, and all fees due, and said aggregate shall remain a lien on such tract until

*Section nine changed by act of April 15, 1873.

paid or otherwise legally discharged: *Provided*, That the several prothonotaries shall be allowed to charge the fees now authorized by law when any information shall be desired from said records, and for entering any certificate under the seal of the Surveyor General, setting forth that any lien or part of lien against an unpatented tract has been paid, shall charge the party presenting such certificate a fee of twenty-five cents for entering and filing the same.

11. SECTION II. That the fifth section of the act to which this is a supplement, and so much of said act as is inconsistent herewith, be and the same is hereby repealed.

[Act of 8th April, 1869. P. L. 21.]

An act directing public notice to be given when county land lien docketts are forwarded to the respective counties, and staying proceedings by the Attorney General for one year from the date of forwarding the same.

WHEREAS, The Surveyor General, at an early day, will be prepared to send out the county land lien docketts, containing accounts due the commonwealth on account of lands, prepared under the act approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four, and the supplement thereto, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight;

And whereas, It is proper that the people owing the state, for or on account of lands, should have notice when the liens therefor are entered in the counties, and that a reasonable time should be given to enable them to liquidate their indebtedness and obtain patents for their lands, before suits shall be brought in such cases by the Attorney General; therefore,

12. SECTION I. That when any county land lien docket, prepared under the foregoing acts, shall be forwarded to any county, the Surveyor General is hereby authorized and directed to cause a notice thereof to be given in one English newspaper, published at the county seat of such county, and also in one German newspaper, if there be one in said county, setting forth that the land lien docket for that county has been forwarded to the prothonotary thereof: *Provided*, That no greater sum than ten dollars shall be paid for such notice or advertisement for any one county; and on evidence being submitted to the Auditor General that such advertisement has been authorized by the Surveyor General, and inserted at the usual rates of advertising, he shall draw his warrant on the treasury in favor of the editor or publisher inserting the same.

13. SECTION II. That no suit or suits shall be entered or instituted by the Attorney General, under the provisions of the seventh section of the act of the twentieth of May, Anno Domini one thousand eight hundred and sixty-four, until one year shall have elapsed from the date at which the Surveyor General shall have forwarded to each county, respectively, the land lien docket for the same.

[Act of 15th April, 1869. P. L. 31.]

A further supplement to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of locations or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

WHEREAS, An examination of warrants and returns of survey show in many cases interferences in said returns, and in many instances where patents have issued on some of said surveys, there are balances due upon other warrants covering the same land; therefore,

14. SECTION I. That whenever satisfactory evidence shall be given to the Surveyor General that a lien or liens have been entered against lands for which the commonwealth has been fully paid, both for land and patent fees, he is hereby authorized, and it shall be his duty, to give to the party or parties applying for the same a release of said lien or liens, so far as said patented lands are concerned; which said release may be entered on the land lien docket, in accordance with the provisions of the supplement to the act of which this is a further supplement, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight.

[As many persons will apply for releases under the provisions of this law, it is deemed proper to state what will be regarded as satisfactory evidence by this department. Applicants, in order to avail themselves of the act, should cause a plot or survey of the patented tracts, and the unpatented interfering tracts (showing the manner in which, and to what extent they cover the same land), to be made by the county surveyor, who will certify that he has made the same at the request of A, B, and C—the owners of the patented tracts, or parts of tracts, or their agents or attorney—giving names of warrantees and dates of warrants and patents, and names and dates of warrants of the unpatented lands, and that he believes the interference or interferences to be as delineated by him. On a paper appended to the above plot of surveys, the applicant or applicants, his or their agent or attorney, will be required to make an affidavit that the interferences are believed to be as delineated by the county surveyor. A release will then be issued to the owner or owners of the patented tract or tracts, relieving them from any and all liability to pay the liens of the commonwealth entered against such interfering unpatented tract or tracts. Section seven of the act approved the 20th day of May, 1864, invested the Attorney General with authority to proceed against the owners of unpatented lands, to enforce the payment of the arrears of purchase money, interest and fees due the commonwealth on said lands. This power, by the following supplement, became vested in the Board of Property.]

[Act of 5th May, 1871. P. L. 261.]

A further supplement to an act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

15. SECTION I. That the Board of Property shall have full and discretionary power as to the time of entering suits and the number thereof, to be brought for the collection of liens against unpatented lands; and the Attorney General shall proceed, under the seventh section of the said act, to which this is a further supplement, when authorized to do so by the said Board: *Provided*, That no interest shall be charged on patent or other fees.

[Act of 11th April, 1872. P. L. 51.]

A further supplement to an act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of location or other office title, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

16. SECTION I. That for carrying into full effect the provisions of the act to which this is supplementary, it shall be the duty of the Surveyor General to make out and forward to the several county surveyors, respectively, from time to time, as the Board of Property may determine, special lists of warrantee names of unpatented tracts, or remaining parts of unpatented tracts, of lands within the several counties, as the same may appear upon the land lien dockets, with such other data relating thereto as he may deem necessary.

17. SECTION II. That it shall be the duty of the county surveyor of each county, to whom the Surveyor General may send special lists of warrantee names of unpatented tracts or parts of tracts of land, and other data relating thereto, situate in the county for which such surveyor shall have been elected or appointed, to endeavor to ascertain the names and residences of the owners, agents or occupiers, and location of said tracts or parts of tracts, or any of them, and to give personal notice in writing to said owners, agents or occupiers, that said tracts or parts of tracts are unpatented, and that unless the arrearages shall have been paid within six months from the time of sending or serving said notice, the Board of Property may direct proceedings to be commenced by the Attorney General to enforce payment, under the provisions of the act to which this is a further supplement: *Provided*, That when unpatented lands, as aforesaid, are occupied, and the owners are non-residents of the county, and have no known agent or agents within the county, the said notice may be given by sending it by mail, addressed to the owners or agents, and directed to the postoffice nearest their place of residence or usual place of business: *And provided further*, That when lands as aforesaid are unseated, and have been sold for taxes, and the time limited for their redemption has not expired, it shall be the duty of the county surveyor to give notice, in the manner hereinbe-

fore provided, to the purchasers or their agents, and also to the parties, or their agents, who last paid taxes thereon previous to the sale

18. SECTION III. That it shall be the duty of the county surveyor to whom such special list shall have been sent as aforesaid to make a written report in duplicate, within three months, to the Surveyor General, filing a copy of the same in the prothonotary's office of each county, setting forth the names of warrantees, dates of warrants, location of tracts, and the names and residence of the owners, agents, or occupiers of the unpatented tracts or parts of tracts, upon whom he has served the notices as aforesaid, together with the manner of service; and for serving such notices on all the owners, agents, or occupiers of an original unpatented tract, or remaining part of an original unpatented tract, he shall be entitled to a fee of five dollars, to be paid out of the state treasury, on warrants drawn by the Auditor General, upon the certificate of the Surveyor General.

19. SECTION IV. That it shall be the duty of the county surveyor, upon the reasonable request of any owner, or his agent, of part of an original tract which has not been patented, to make and return a return of survey of such part to the Surveyor General, and for which service his fees shall be the same as for executing a warrant of survey, as now provided by law for the same quantity of acres.

20. SECTION V. That when any suits shall be entered by the Attorney General, under the act to which this is a further supplement, it shall be by *scire facias sur liens*, which shall be directed for service to the sheriff of the county in which the land is situate; and if he finds it necessary to insure a service of said writ, he may call to his aid the county surveyor, who shall act as his deputy, for the purpose of serving such writ; and all such writs shall be made returnable to the court of common pleas of the county wherein such lands are situate, where all such suits shall be tried.

SECRETARY OF INTERNAL AFFAIRS.

[Constitution, Art. IV.]

[Section I names the Secretary of Internal Affairs as one of the Executive Department, and section 9 constitutes him a member of the Board of Pardons.]

SECTION XIX. [I.] The Secretary of Internal Affairs shall exercise all the powers and perform all the duties of the Surveyor General, subject to such changes as shall be made by law. His department shall embrace

[II.] A Bureau of Industrial Statistics.

[III.] And he shall discharge such duties relating to corporations, to the charitable institutions, the agricultural, manufacturing, mining, mineral, timber and other material or business interests of the State as may be prescribed by law.

[IV.] He shall annually, and at such other times as may be required by law, make report to the General Assembly.

SECTION XXI. The term of the Secretary of Internal Affairs shall be four years. * * * * *

[Art. XVII.]

SECTION XI. The existing powers and duties of the Auditor General in regard to railroads, canals and other transportation companies, except as to their accounts, are hereby transferred to the Secretary of Internal Affairs, who shall have a general supervision over them, subject to such regulations and alterations as shall be provided by law; and, in addition to the annual reports now required to be made, said Secretary may require special reports at any time upon any subject relating to the business of said companies from any officer or officers thereof.

[These provisions of the constitution are enforced by acts of assembly, passed in pursuance thereof, approved respectively on the 11th day of May, 1874, P. L. 135; the 15th day of May, 1874, P. L. 172 and 193, and by the following]:

[Act of 8th May, 1876. P. L. 143]

A further supplement to an act regulating the election of Secretary of Internal Affairs, defining his duties and fixing his salary, approved the eleventh day of May, Anno Domini one thousand eight hundred and seventy-four.

SECTION I. That the Secretary of Internal Affairs and his chief clerk, who shall hereafter be designated deputy secretary of internal affairs, shall have power and authority to administer oaths or affirmations in any or all matters pertaining to the business of his department.

SECTION II. All maps, drafts, reports and other papers relating to surveys of state or county lines, state or turnpike roads, railroads, canals, or other public improvements now remaining in the office of the Secretary of the Commonwealth, and not connected with the other records of his office, shall, as soon as practicable after the passage of this act, be transferred to the Secretary of Internal Affairs, who is hereby authorized and directed to receive and deposit the same in his department; and all such maps, drafts, reports and papers as are now by law required to be placed in the office of the Secretary of the Commonwealth, shall hereafter be deposited in the Department of Internal Affairs.

SECTION III. It shall be the duty of all commissions appointed to re-establish any of the boundary lines of this commonwealth, to erect a new county, or to annex part of one county to another county, to transmit a copy of their report to the Secretary of Internal Affairs, to be by him deposited in his department.

SECTION IV. It shall be the duty of all commissions appointed to resurvey, re-mark, alter, or change any county line, to deposit duplicate copies of their report in the office of the clerk of the court of quarter sessions of the proper county; and after the same has been confirmed

by said court, the said clerk shall, upon one of the copies, certify such confirmation, and immediately transmit the same by mail to the Secretary of Internal Affairs, to be by him deposited in his department.

SECTION V. Copies of all records, documents, entries and papers now in the Department of Internal Affairs, or that may be transferred thereto in pursuance of this act, or that may hereafter be deposited therein according to law, shall be made and certified at the request of any person applying for the same, on the payment of the same fees as was prescribed by the fee bill for similar services in the Surveyor General's office at the time the same was merged into said department, which fees shall be accounted for and paid into the treasury in the same manner as is now provided by law for other fees, to be collected by the said secretary ; and the said copies shall be received in evidence in the several courts of this commonwealth, in all cases where the original records, documents, entries and papers would be admitted in evidence.

WARRANTS.

[Act of 14th April, 1874. P. L. 58.]

An act relative to the issuing of warrants to survey vacant lands.

SECTION I. That every applicant for a warrant to survey any of the vacant lands of this commonwealth shall produce to the Surveyor General a particular description of the land applied for, with an affidavit of a disinterested witness, made before a justice of the peace of the township or borough in which the land applied for, or the greater portion of it, is situate, or if there be no justice of the peace in such township or borough, before a justice of an adjoining township or borough, specifying whether the said land be improved or not, and if improved, how long since the said improvement was made, that interest may be charged as now provided by law. The applicant for such warrant shall declare, upon oath or affirmation, before a justice of the peace of the township or borough in which the land, or greater portion of the same, is situate, or if there be no justice in such township or borough, before a justice of an adjoining township or borough, that he verily believes that no warrant or other office right has previously issued for such land, or if one has issued, after giving full particulars in relation thereto, shall depose that he verily believes it has been abandoned ; and if at any time thereafter it shall appear that the person or persons deposing, as aforesaid, or any of them, shall knowingly have sworn falsely, such person or persons shall suffer all the pains and penalties of perjury.

SECTION II. No warrant shall issue for any tract or piece of land on which settlement is made, or which may be either in whole or in part cleared and fenced, or otherwise improved, used or occupied and held by defined boundaries, unless to such person or persons, respectively,

who have made the settlement, clearing, fencing or improvement, their legal representatives or assigns, upon proof of ownership of such settlement or improvement right, and if any warrant shall issue otherwise than as aforesaid, it shall be void: *Provided*, That this section shall not apply to abandoned improvements.

SECTION III. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the Surveyor General, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate, and nearest its location, and shall furnish proof that such notice has been given before a warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property, and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant the purchase money shall be returned to the applicant.

SECTION IV. This act shall not apply to applications for warrants filed with the Surveyor General before its passage.

[Act of 23d of April, 1889. P. L. 46.]

An act to amend section three of an act approved the fourteenth day of April, one thousand eight hundred and seventy-four, entitled "An act relative to the issuing of warrants to survey vacant lands," providing for the payment of purchase money and fees due the commonwealth, and regulating the consideration of *caveats* filed against the granting of warrants.

SECTION 1. *Be it enacted, etc.*, That section three of the act approved the fourteenth day of April, one thousand eight hundred and seventy-four, entitled "An act relative to the issuing of warrants to survey vacant lands," which section provides as follows:

"SECTION 3. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant and depositing the amount of the purchase money and fee with the Surveyor General, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate and nearest its location, and shall furnish proof that such notice has been given before warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property; and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant, the purchase money shall be returned to the applicant," be and the same is hereby amended to read as follows:

SECTION 3. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the Secretary of Internal Affairs, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate and nearest its location, and shall furnish proof that such notice has been given before a warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property; and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant, the purchase money shall be returned to the applicant: *Provided*, That *caveats* presented by those who claim to have acquired title, by virtue of settlement and improvement rights, shall not be received as such, or prevent the granting of warrants unless the *caveator* shall deposit with the *caveat* the purchase money, interest, warrant and patent fees as provided by law, which purchase money and fees shall be retained as a deposit until a decision is had as to the respective rights of the parties, and if such decision be adverse to the *caveator*, then the money deposited shall be refunded on application made, and vouchers executed, as required by the Secretary of Internal Affairs: *Provided further*, That settlement and improvement rights shall only be acquired and recognized as such by an actual entry upon vacant land of the commonwealth, with the manifest intention of making it a place of abode, together with an actual improvement of the land by clearing and tilling the soil for the purpose of gaining support thereby, and also defining the limits of such claim by survey and well marked lines. No action at law shall be maintained by the person or persons claiming settlement and improvement rights, neither shall such person, or persons, be permitted to set up a defense based on such rights, unless the purchase money and fees aforesaid shall have been paid to the commonwealth. All acts or parts of acts inconsistent with the provisions of this amendment be and the same are hereby repealed.

OFFICE OF BERKS COUNTY COMMISSIONERS,
READING, PA., January 9, 1890.

THOMAS J. STEWART, *Secretary of Internal Affairs*:
The amount it costs the county of Berks for support of the poor for the year 1889, is \$49,619.71 (forty-nine thousand six hundred and nineteen dollars and seventy-one cents). You will notice that the city of Reading is not included in the return. We sent blank to the officials to be filled out and return to this office, but they refused to make returns, and consequently I could not report to you.

Yours respectfully,

W. H. FISHER, *Clerk*.

BLAIR COUNTY.

*The poor directors' requisition for 1889 is \$22,000. No separate poor tax is laid. The county also pays about \$7,000 for the support of indigent insane. Column No. 1 does not contain the amount of state taxes paid directly to the State Treasurer. Column No. 3.—The figures opposite Erie city and Corry city represent the amount of street appropriations in each city. The amounts opposite townships and boroughs represent the whole amount of road tax or borough tax respectively. We have not been able to ascertain the exact part used for streets and roads. We learn, however, that in townships and boroughs nearly all the taxes, except school taxes, are used for that purpose. Column No. 4 does not contain state taxes paid directly to the State Treasurer. Column No. 5 does not contain the amount of minimum school tax. This data is very hard to get. We will attempt it if you deem it necessary. The avails of mercantile tax now in suit are estimated. Column No. 7.—No real estate is assessed to railroad corporations in this county except what is not necessary for railroad purposes. Column No. 8 contains the taxes on real estate bought by banks in foreclosure. There may be more of this class assessed in the name of trustees.

The above report does not include poor tax, city tax, state and city mercantile tax collected in the city of Carbondale. Have requested the authorities there several times to send in their reports, but as yet they have not been received. Would have sent in this report some time ago were it not for our waiting to hear from outside parties, and concluded to wait no longer for Carbondale.

The poor are maintained as a county charge.
Impossible to fill columns 8 and 9, as a great many tracts of land belong to corporations, etc., but are assessed to private individuals, and any report we should make would be very incomplete.

* This return does not include the report from the city of Reading, whose officers failed to respond to the request of the county commissioners.

† This does not include the products of the county farm.

‡ The returns from Philadelphia do not show the amount of taxes collected for any specific purpose, but indicate the amounts appropriated by councils for purposes indicated in the return, covering a period from December 31, 1888, to January 1, 1890.

NOTE.—The reports from Montour and Northumberland counties were received after the compilation of reports was completed, and are not, therefore, included in the above statement.
